BAND TO PLAY TWO SPECIAL TUNES ON 21ST

The Gettysburg High School band will play at least two special numbers as it marches through the streets of Washington, D. C., January 21, leading the nationwide Citizens for Eisenhower and Nixon section of the inaugural parade. Its last division of the column.

At the request of Richard W. McCabe, parade official, and the national Citizens for Eisenhower organization, the band will play "Ike, Mr. President" as it passes the Presidential reviewing stand.

McCabe, in a letter to Burgess William G. Weaver, said an arrangement of the number especially for the Gettysburg High School band has been prepared by Fred Waring, composed of the music. The tune was the "anthem" of the Citizens for Eisenhower, part of the recent Presidential campaign.

Bandwagon Theme Number
The other special number to be played by the local high school band at request of the national organization will be "We Love the Sunshine of Your Smile." It was the theme number of the Citizens for Eisenhower and Nixon Bandwagon groups during the recent campaign and, according to McCabe, "is a favorite of the President."

Plans for the local band to participate have gone forward since Burgess William G. Weaver received a letter from Richard W. McCabe, member of the inaugural parade committee, saying: "We are very pleased to advise you that the Gettysburg High School band has been accepted to participate in the inaugural parade, Monday, January 21, in honor of President Eisenhower and Vice President Nixon. You will also be pleased to know that your band has been selected to furnish music for the National Citizens for Eisenhower and Nixon Bandwagon."

Band Director Robert Zeigler said the 60-member band will be accompanied by nine majorettes, five color guards, two banner carriers, the drum major and chaperones.

Wanted — \$500

For the first time in history a Gettysburg High School band has been invited, and has accepted, to play in the official parade attending the inauguration of a U. S. President — Dwight David Eisenhower — in Washington on Monday, January 21.

Approximately \$500 will be required to finance the expense of the trip for the 82 musicians and their director. These expenses include bus transportation, noon luncheon in Washington and a supper enroute home after the parade.

The Gettysburg Times feels that this is a public responsibility. It is a privilege to have had the local high school band invited. The young musicians should not be denied this opportunity, one that comes once in a lifetime. They will be part of the Pennsylvania exhibit which is certain to be most pleasing to President Eisenhower. It is a foregone conclusion that these youngsters will make a fine impression upon those who will witness the parade in Washington and on the extensive nationwide Television telecast.

The Gettysburg Times will accept contributions to this fund.

Former Trustee Of College Dies At 78

John H. Beerits, 78, graduate of Gettysburg College in 1899, who ended a tenure of 25 years as a member of the college board of trustees in 1955, died Monday at Somerset. He was a longtime Somerset merchant and was active in Republican politics.

A former assistant principal at the Somerset High School, Mr. Beerits had engaged in the lumber business and then had been a coal operator and member of the firm of H. C. Beerits' Sons, merchants. He was a former bank president in Somerset and in World War I headed bond drives there. He was active in many community service organizations.

His wife was the former Florence Agatha Knepper of Somerset. They had a son and a daughter.

SAYS COLLEGE CONTRIBUTES TO DEFENSE OF U.S.

With nearly 500 out of its approximately 800 male students members of either the Army or Air Force ROTC, "Gettysburg College is providing a substantial share toward our national defense," Lt. Col. Donald E. Williams, professor of air science and tactics at the college, told the local Rotary Club at its meeting Monday evening at the YWCA.

"The ROTC is a voluntary program and the presence of so many students at Gettysburg College indicates that the ROTC has something to offer young men. I think basically its appeal however is patriotic. Our young men have a deep love of country, although they may not wear it on their sleeve. They are interested as citizens in the task of national defense to defend our country, our homes, our way of life."

"In the film I am about to show you will see some of the new weapons that have changed our tactics and our way of thinking in regard to defense. Our defense posture is one of strength, to deter aggression."

Defense More Deadly
"And while defense may seem expensive, in a way it is becoming cheaper — because the machines of warfare are becoming more deadly. In World War II we figured the cost of delivering one pound of high explosive bomb at \$20. So you can (Continued On Page 7)

BOROUGH SPENT \$127,642.32 IN TWELVE MONTHS

Gettysburg borough spent \$127,642.32 during 1956 according to the report of Treasurer John H. Baschore presented to council Monday evening at the engine house. The amount is \$22,412.59 more than the \$105,229.73 spent in 1955.

The town ended 1956 with a balance of \$20,882.21 in the bank compared to a balance of \$48,578.06 at the end of 1955.

Baschore's report indicated that the surplus built up during World War II when shortages prevented purchases has about disappeared. It also indicated the possibility that next month's budget adoption may also bring an upward revision of borough taxes which are now 11 mills, or two mills less than the 13 mill levy of ten years ago.

According to the treasurer's report the town spent \$11,724.85 for general government, \$44,381.11 for protection to persons and property; \$3,623.11 for health and sanitation; \$50,027.29 on its streets; \$7,718.83 miscellaneous and \$10,167.08 for electricity.

Expenses Top Receipts
During December the town again spent more than it received. Baschore's report showed income of \$4,046.15 including \$15 from Justice of the Peace Robert P. Snyder, \$30 from Justice Baschore, \$732.45 from Tax Collector J. Herbert Welkert, \$2,081.16 from the meter fund and \$1,187.54 from Burgess William G. Weaver. It entered the month with a balance of \$24,728.76.

Expenditures in December totaled \$7,886.10 including \$573.83 for general government and \$1,187.54 for (Continued On Page 2)

WILL ASK CONTINUANCE OF EXCISE, CORPORATION TAX

WASHINGTON (AP) — President Eisenhower and Republican congressional leaders formally decided today to seek a continuance of about three billion dollars in excise and corporation taxes beyond the April 1 expiration date.

The decision was announced by the White House by Senate GOP Leader Knowland of California. It underscored what administration leaders previously have said are dim prospects for any major tax reduction this year.

Knowland announced the decision after he and other GOP congressional leaders had conferred with the President. It was the first of the regular Tuesday morning White House sessions with the Republican

SAYS JUVENILE DELINQUENCY IS NO PROBLEM HERE

"Juvenile delinquency is not a problem today in Adams County," Delroy M. Anderson, the county probation officer, told members of the Gettysburg Lions Club Monday evening at their first dinner meeting of the year at the Shelter House.

He contradicted the popular notion that most delinquency occurs in broken homes and said: "More boys come before the juvenile court in Adams County from homes like those represented here tonight than from any other kind."

Mr. Anderson gave figures on juvenile court cases in this county last year and asserted: "Your home is not immune from this kind of difficulty. If you don't take a proper interest in the problems of your children, don't take their welfare for granted. They want advice from you but generally are hesitant to ask for it."

Announce Show Dates
Announcement was made during the business session that the annual Lions Charity Fund benefit show will be held in the Gettysburg High School auditorium May 6 and 7 and will be called "Dudes And Dames."

Kiwanis Officers Installed Monday

Cecil Pepperman, Camp Hill, lieutenant governor of Division 13 of the Kiwanis International organization, installed new officers of the Gettysburg Kiwanis Club at a ladies' night meeting Monday evening at Banker's restaurant.

The incoming officers are Harry Spangler, president; Prof. Herbert Hamme, first vice president; Robert McCoy, second vice president; Clyde Markle, secretary; and Charles Kaufman, treasurer.

Three members of the Hanover Kiwanis club were introduced as visitors.

Following the business meeting the club attended services at the Baptist Church as part of Gettysburg's Week of Prayer observance.

Senator Elliott On Five Committees

Senator Douglas Elliott, of Chambersburg, representing the Adams-Franklin District, has been appointed to five Senate committees, it was announced today.

Senator Elliott will serve on the Agricultural, Insurance, Judiciary General (formerly chairmaned by ex-Senator Donald McPherson), Labor and Industry and Military Affairs and Aeronautics.

At a news conference, Knowland and House Republican Leader Martin of Massachusetts reported that Eisenhower and the leaders drew up a proposed priority list of legislation. Knowland emphasized, however, that a final decision on the sequence of legislation will be up to the Democrats in both the Senate and the House because their party is in control of Congress.

Topping the GOP priority list was a call for speedy action on the administration's anti-Communist program for the Middle East. Eisenhower outlined his program for thwarting Red aggression in that area to the lawmakers in a special message last Saturday.

NAME STEVENS AS POLICEMAN; BURGESS ASKS BUDGET BOOST

Luther E. Stevens, 308 N. Stratton St., was named by borough council at its meeting Monday evening in the engine house as a full-time policeman.

Stevens, who for many years was a guard at the governor's mansion at Harrisburg, has been a part-time policeman here for about five years. In recent months he has been serving nearly as many hours as he will as a regular policeman.

His appointment, at a salary of \$3,000 per year, fills the vacancy caused by the resignation some months ago of Ralph Fissel from the borough police force.

Study Pay Raise Proposal
Stevens' appointment came on a recommendation of the safety committee submitted by Glenn Guise, who said his committee had contacted the town's Civil Service Commission and that the commission had "submitted Stevens' name as a man qualified for the post."

Guise read to council a letter from Burgess William G. Weaver recommending that the salaries paid policemen in the borough be increased because of the increased cost of living. Council President H. M. Oyer asked Guise's committee to study the matter and make recommendations at the February meeting.

Burgess Weaver's letter also asked council to consider increasing the budget for police work in 1957 "because of increased duties of the police force" including extra work entailed by Presidential visits here, increased use of full and part-time special policeman to help children across the street at the hours schools close and open, and increased need of police on Lincoln Square and elsewhere because of increased traffic through the town.

Okay Bridge Repairs
Council authorized repairs to the bridge on E. Water St. over the Tiber following a report by Highway committee chairman C. Donald Rebert. The bridge, constructed about 1934 by the WPA, is of steel beam (Continued on Page 2)

QUARTET WELL RECEIVED HERE MONDAY NIGHT

More than 700 members of the Gettysburg Concert Association enthusiastically received selections from Mozart, Schumann and Brahms played Monday evening by the Festival Quartet, in Christ Chapel, college campus. The artists, who gave the second concert in a series of three, included Victor Babin, pianist, Symon Goldberg, violinist, William Primrose, violist, and Nikolai Graudan, cellist.

The quartet played from 8:30 until 10:45 o'clock with about 15 minutes intermission. In response to the marked applause they played a "Minuet" by Carl Maria Von Weber as an encore.

Tours U. S. And Abroad
Mr. Babin, of the two-piano team, "Wronsky and Babin," is a leader in many musical activities. A composer, he divides his time between duo-piano concert tours of the United States and Europe with his wife, Vitya Wronsky, the debut of the Festival Quartet and summer at the Aspen Festival near Denver.

Mr. Goldberg devotes much of his European season to the newly-formed and government-backed Netherlands Chamber Orchestra in Amsterdam. The violinist, William Primrose, was made commander of the B. S. Empire by Queen Elizabeth II in 1953. He has also played with Tsoanini, Mr. Graudan, the cellist, tours frequently with his pianist-wife, Joanna, in the United States and abroad.

Opening Selection
The quartet opened the program with Mozart's "Piano Quartet in G Minor" (K. 478) including the allegro, andante and rondo, a work which was completed October 16, 1783, just before Mozart started the composition of the "Marriage of Figaro." Only the first movement of the first quartet is in G Minor, the key Mozart used for his most poignant and dramatic utterances. The musicians played in contrasting moods the tranquil and serene "Andante" and concluded with the gay "Rondo."

The audience appreciated the next selection, "Piano Quartet in E-flat Major," which included the Sostento assai-allegro ma non troppo. Scherzo: Molto vivace. Andante cantabile and the finale. It is considered a "highly romantic composition, full of warmth and enthusiasm" and was first performed at a farewell party given by Schumann for friends December 8, 1844, when he and his wife (Continued on Page 7)

BAND TO PLAY TWO SPECIAL TUNES ON 21ST

The Gettysburg High School band will play at least two special numbers as it marches through the streets of Washington, D. C., January 21, leading the nationwide Citizens for Eisenhower and Nixon section of the inaugural parade, its last division of the column.

At the request of Richard W. McCabe, parade official, and the national Citizens for Eisenhower organization, the band will play "The Mr. President" as it passes the Presidential reviewing stand.

McCabe, in a letter to Burgess William G. Weaver, said an arrangement of the number especially for the Gettysburg High School band has been prepared by Fred Waring, composed of the music. The tune was the "anthem" of the Citizens for Eisenhower, part of the recent Presidential campaign.

Bandwagon Theme Number

The other special number to be played by the local high school band at request of the national organization will be "We Love the Sunshine of Your Smile." It was the theme number of the Citizens for Eisenhower and Nixon Bandwagon groups during the recent campaign and, according to McCabe, "is a favorite of the President."

Plans for the local band to participate have gone forward since Burgess William G. Weaver received a letter from Richard W. McCabe, member of the inaugural parade committee, saying: "We are very pleased to advise you that the Gettysburg High School band has been accepted to participate in the inaugural parade, Monday, January 21, in honor of President Eisenhower and Vice President Nixon. You will also be pleased to know that your band has been selected to furnish music for the National Citizens for Eisenhower and Nixon Bandwagon."

Wanted - \$500

For the first time in history a Gettysburg High School band has been invited, and has accepted, to play in the official parade attending the inauguration of a U. S. President — Dwight David Eisenhower — in Washington on Monday, January 21.

Approximately \$500 will be required to finance the expense of the trip for the 82 musicians and their director. These expenses include bus transportation, noon luncheon in Washington and a supper enroute home after the parade.

The Gettysburg Times feels that this is a public responsibility. It is a privilege to have had the local high school band invited. The young musicians should not be denied this opportunity, one that comes once in a lifetime. They will be part of the Pennsylvania exhibit which is certain to be most pleasing to President Eisenhower. It is a foregone conclusion that these youngsters will make a fine impression upon those who will witness the parade in Washington and on the extensive nationwide Television telecast.

The Gettysburg Times will accept contributions to this fund.

Former Trustee Of College Dies At 78

John H. Beerits, 78, graduate of Gettysburg College in 1899, who ended a tenure of 25 years as a member of the college board of trustees in 1955, died Monday at Somerset. He was a longtime Somerset merchant and was active in Republican politics.

A former assistant principal at the Somerset High School, Mr. Beerits had engaged in the lumber business and then had been a coal operator and member of the firm of H. C. Beerits Sons, merchants. He was a former bank president in Somerset and in World War I headed bond drives there. He was active in many community service organizations.

His wife was the former Florence Agatha Knepper of Somerset. They had a son and a daughter.

SAYS COLLEGE CONTRIBUTES TO DEFENSE OF U.S.

With nearly 500 out of its approximately 800 male students members of either the Army or Air Force ROTC, "Gettysburg College is providing a substantial share toward our national defense," Lt. Col. Donald E. Williams, professor of college and tactics at the college, told the local Rotary Club at its meeting Monday evening at the YWCA.

"The ROTC is a voluntary program and the presence of so many students at Gettysburg College indicates that the ROTC has something to offer young men. I think basically its appeal however is patriotic. Our young men have a deep love of country, although they may not wear it on their sleeve. They are interested as citizens in the task of national defense to defend our country, our homes, our way of life."

"In the film I am about to show you will see some of the new weapons which have changed our tactics and our way of thinking in regard to defense. Our defense posture is one of strength, to deter aggression."

MOTHER AND 2 CHILDREN DIE IN HOUSE ABLAZE

CANTON, Pa. (P)—Fire that apparently started while they were sleeping took the lives yesterday of a mother and her two children in this north central Pennsylvania community.

The victims all apparently suffocated according to Bradford County Coroner Gerald Vickery, were Mrs. Paul Crandall, 38, her son, Gary, 5, and a daughter, Paulette, 3.

The blaze was noticed by a neighbor Mrs. Clifton Cornell when she awakened to find her baby at 5 a.m. Mrs. Cornell said the under story of the two-floor frame building was aflame.

When firemen arrived they found the mother and boy lying

by a door to a bedroom at the front of the house. The girl's body was found in her bed, which dropped into the basement as the fire and second floor collapsed.

Fire Marshal Michael Ryan said the blaze appeared to have started near a first floor register in a pipe leading from a coal furnace. Ryan estimated damage to the house—only the shell of which remained—at \$15,000.

Mrs. Crandall's husband, Paul, 38, was away at the time of the blaze. He is a driver for an Elmira, N.Y., trucking firm and was located on the road.

A baby sitter who had been in the Crandall home until early yesterday said everything seemed in order when she left.

MISGIVINGS IN ARAB WORLD ON BLOCKING REDS BY IKE'S PLAN

By THE ASSOCIATED PRESS

President Eisenhower's plan for blocking communism in the Middle East was viewed with misgivings today in most of the Arab world.

Reaction elsewhere ranged from enthusiasm in some Western European countries to cries of "rudder interference" from Moscow. Non-Arab allies of the United States in the Middle East welcomed the plan.

The Eisenhower doctrine aimed at preventing Communist encroachment on the Middle East—coupled the promise of large-scale economic help to the area with a threat to use U. S. armed forces against overt Communist aggression there. The President outlined it to Congress Saturday.

In Cairo, the reception was chilly but mild. Some Egyptians who had hoped the United States was ready to unveil a new policy of support for President Nasser were disappointed.

There was also the feeling that the doctrine would make it more difficult for Egypt to play off the Communists against the West as in the past. There was fear that continued flirting with the Soviet bloc through arms purchases and other help would lay Nasser open to the charge of being a vehicle of "indirect Communist aggression."

Cairo newspapers cautioned restraint, saying many phases of the Eisenhower plan remained to be explained.

General Disappointment

Many Arabs throughout the area expressed disappointment that the President passed quickly over the Israel-Arab dispute leaving the United Nations to continue its so far unsuccessful efforts to solve this problem.

Sampling of opinion in Beirut showed general disappointment in the doctrine. But a number of Arabs found some "good things" in it, such as an implication of stronger U. S. support for independence movements. One Arab expressed the view that Eisenhower put across "an excellent piece of diplomacy." He explained:

"Had Eisenhower mentioned anything about Israel, Britain and France, he would have scared Congress away from giving him standby authority. Once he gets that power, he can do what he wants and he will do what's right."

See "Cold War"

Newspapers in Israel also were disappointed that the speech did not offer a remedy to the Israel-Arab problem. But they welcomed the step as an entrance of the United States in the Middle East.

In Syria, where a pro-Soviet clique is in power, official quarters called the doctrine a "formal declaration of cold war." A spokesman said the Middle East does not want to be involved in the struggle between East and West.

Political circles in Iraq, which is aligned with the West in the Baghdad Pact, thought the doctrine seemed to touch the disease in the Middle East without trying to find the cause.

Backed By Turkey

Turkey, an NATO and Baghdad Pact member, gave the plan its strongest support in the Middle East. Premier Adnan Menderes said:

"One fact, that the Middle East will not be abandoned to its fate, is clearly understood. Peace and stability may prevail in the region."

Pakistan also viewed it with favor.

Misgivings From Nehru

India's Prime Minister Nehru and his top associate voiced misgivings. Without mentioning the doctrine specifically, Nehru said that if there is a power vacuum in the Middle East, it is for the countries in that region to fill it.

"Once we accept the idea of a foreign power filling the gap in the Middle East then all foreign powers rush in," Nehru said.

Russia and four of her satellites joined in a bitter denunciation of the doctrine.

"The rude interference of American monopoly capital and military circles in the affairs of the Middle Eastern states creates a new and serious crisis in this area," said a joint communique announcing that Communist boss Nikita Khrushchev had met in Budapest with leaders of Hungary, Bulgaria, Romania and Czechoslovakia.

FISHING FOR SOAP

JACKSONVILLE, Fla. (P)—Soap fishing was the No. 1 sport on the St. Johns river at Jacksonville yesterday. The soap, cargo of a barge that sank, began floating to the surface in the downtown section. There were thousands of bars of it. Police reported people in boats and along the bank were using "crao nets, dip nets and everything else including rakes."

ROACH IN HIS EAR

MOUNT HOSTS WASHINGTON 5; 2 AWAY GAMES

Mt. St. Mary's College continues Mason-Dixon Conference basketball play with three conference games set for this week. Wednesday evening the Mounties tangle with Washington College at Emmitsburg and on Friday and Saturday face two of the top southern teams in Hampden-Sydney and Bridgewater. Both Virginia games are away.

While Phelan was pleased with the victory at Loyola, the first game at Evergreen in regular season play the Mountaineers have won since the 1943-44 season, he is hopeful that the steady diet of basketball which the team now faces will bring constant improvement.

The Mountaineer mentor is especially interested in a better scoring spread than he has been getting and is hopeful that his highly touted freshmen will begin to catch fire as they get greater opportunities to play.

The Loyola victory gives the Mountaineers a decided edge in the drive for the conference crown and the automatic berth in the NCAA tourney, but Phelan has warned his charges that any letup along the way can prove disastrous. The Mountaineers still must face the hoop's most powerful squads on a home-and-home basis and almost any club is capable of upsetting the apparent if the Mountaineers let down.

At both Hampden-Sydney and Bridgewater the Phelan crew will face experienced clubs which shoot well and are tough to take in their home lairs.

agents train the Marines in hand-to-hand defensive and disarming tactics.

But the FBI traveled a long road to reach this point. It had its beginning in 1908 when President Theodore Roosevelt demanded an investigative agency in his crusade against the "land thieves" in the West and the big-business "trusts" in the East.

rights and the security of the nation.

Few know how the FBI operates. Few realize that in the protection of the country the FBI also maintains a rigid around-the-clock system of checks and controls over its own agents and their activities.

Checks Progress

Director J. Edgar Hoover can and does pick up his telephone and within a matter of minutes learn where an agent is at any given time, the case on which he is working and the progress being made.

The control system works in this fashion. The special agents in charge of the FBI's 52 field divisions are considered to be Hoover's personal representatives. They are responsible directly to him for the work within the geographic area of their assignments. Each special agent in charge has an assistant—a position regarded as a training ground for the development of future FBI executives.

FBI offices, such as in New York, Chicago and Los Angeles, have field supervisors who direct the work of agents and are responsible to the special agent in charge and his assistant.

Force Deployed

In the smaller cities surrounding the field offices, the FBI has stationed some 1,200 resident agents who are responsible for the work in given sub-sections of the division. This distribution of agents in strategic centers gives the FBI a well-deployed force which can move quickly to any given place, saving time and money.

At the main headquarters in Washington, the operation is highly integrated and centralized. For example, all bank robbery reports come to one desk, where supervisors have the responsibility for tying together the investigative efforts in two, three or perhaps a half-dozen cities.

Perhaps the thieves' operating method in robbing a Chicago bank is recognized by a supervisor as the identical method used a few days earlier in Los Angeles. There may be some piece of information known at headquarters which ties a suspect to a crime. This same operating procedure is used in espionage cases to tie together widely separated operations and to coordinate the agents' work.

Discipline Rigid

The agents are required to telephone their home offices

tained among the other 8,000 employees. Obedience to official regulations is demanded to a degree that is astonishing to an outsider.

The reason for this obedience is always clear to anyone who knows anything of the undisciplined operations which almost destroyed the bureau in the pre-Hoover days.

Over and over, Hoover has stressed the point that there must never be a scandal in the operations of the FBI. "One man can't build the FBI," he says, "but one man can tear it down."

No Easy Life

The life of a special agent isn't an easy one. He knows he may be dismissed summarily from the service if he violates certain rules. For example:

1. He cannot drink intoxicants while on duty. Even off duty excessive use of intoxicants is banned, since the agent is subject to call at any time.

2. He cannot use a government automobile for any purpose except official business.

3. He is forbidden to use brutality or duress in dealing with persons under investigation.

He can be disciplined for a number of other things. Among the "shall nots" are these:

1. He cannot disclose information to any unauthorized person not even his wife.

2. He cannot accept rewards or gratuities in any form.

3. He cannot fail to pay his taxes or to meet other financial obligations.

4. He must not lose official property issued to him.

And the list goes on and on. The newly appointed agent begins to learn discipline from the day he reports into headquarters to begin an intensive training course which lasts for 18 weeks.

The course is divided into two parts. There is the classroom study of investigative techniques, FBI responsibilities under the law and administrative work, and there is the rugged training in self-defense and the use of firearms given at the FBI Academy on the Marine base at Quantico, Va.

Each agent, including the scientists and engineers who work in the laboratory, must know how to take care of himself in a gun battle. He learns the "quick draw," in which a pistol is whipped from a holster with split-second precision in a stance which gives the steadiest position for firing accurately. "Never shoot while run-

IN FIELD CLUB

John M. Eric, New Oxford, field club member for Mutual of New York, was awarded for the complete 1956 National Field Club, it was announced today by Charles E. Jones.

Jones explained that the Field Club is a company, honor group composed of the company's outstanding hunters throughout the country. Membership is based on the number of production and safety records and accident and loss records.

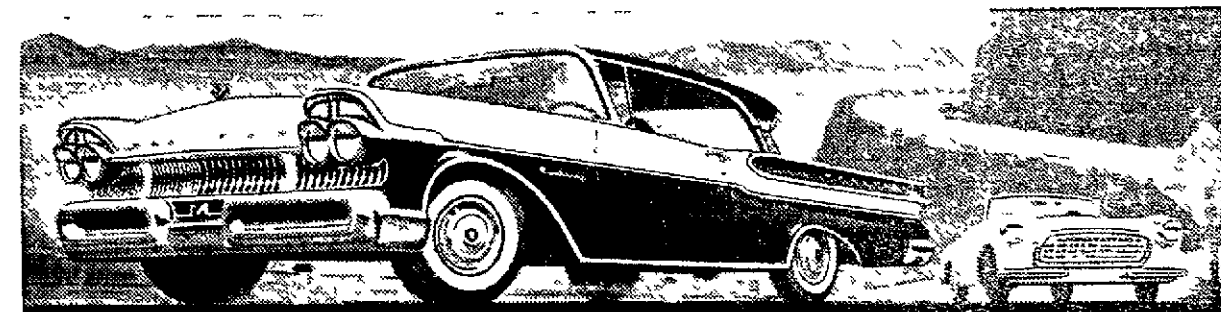

Losses in other years is the basis for the award. The award is not only fed by the company's records from Iraq, but also by the records between Iraq and the company's records on the Indian Ocean. It is a record that little salt is lost from that source.

MOUNT HOSTS WASHINGTON 5; 2 AWAY GAMES

Mt. St. Mary's College continues Mason-Dixon Conference basketball play with three conference games set for this week. Wednesday evening the Mounties tangle with Washington College at Emmitsburg and on Friday and Saturday face two of the top southern teams in Hampden-Sydney and Bridgewater. Both Virginia games are away.

While Phelan was pleased with the victory at Loyola, the first game at Evergreen in regular season play the Mountaineers have won since the 1943-44 season, he is hopeful that the early run of basketball which the team now faces will bring constant improvement.

The Mountaineer mentor is especially interested in a better scoring spread than he has been getting and is hopeful that his highly touted freshmen will begin to catch fire as they get greater opportunities to play.

The Loyola victory gives the Mountaineers a decided edge in the drive for the conference crown and the automatic berth in the NCAA tournament, but Phelan has warned his charges that any letup along the way can prove disastrous. The Mountaineers still must face the loop's most powerful squads on a home-and-home basis and almost any club is capable of upsetting the apparent if the Mountaineers let down.

At both Hampden-Sydney and Bridgewater the Phelan crew will face experienced clubs which shoot well and are tough to take in their home lairs.

SAYS JUVENILE

(Continued from Page 1)
Committee for a recommendation and action next Monday a suggestion that the club contribute to the fund to send the Gettysburg High School band to the inaugural parade in Washington, January 21.

Not From Broken Homes
Mr. Anderson described the functions of the probation office in the various types of cases it is called upon to handle. In domestic relations court, first priority is given to attempting reconciliations, he said, especially where children are involved. He said support payments collected through his office reached a new high last year.

Disputing the idea that most juvenile delinquents come from broken homes, Mr. Anderson said no children were in juvenile court last year from homes involved in the desertion and non-support cases in his office.

"Most of them came from homes where both parents work. I realize that sometimes seems necessary but too often working parents forget their interest in their children. They come home to housework or socialize and let Johnny and his sister paddle their own canoes until it is too late."

Institutions Last Resort
He said the welfare of the child is the sole consideration when his office makes investigations in connection with petitions for adoption before the court. He made brief reference to cases in which the probation officer has supervision of adults. "Most of our time and attention is given to the young people because there is the most hope there of accomplishing helpful results," he explained. "Last year was a very good year as far as juvenile delinquency was concerned in this county," he said.

He explained that delinquents and neglected children are placed in institutions only as a last resort. "We avoid the use of institutions for three reasons — because they rarely do the youngster any good, because of the terrific expense to the county and because after an institution the young person has to the county and because after an institution the young person has to come back to whatever he left here."

Mr. Anderson, who has been probation officer in Adams County for nearly four years, discussed the use of probation orders in handling juvenile cases and observed: "We tell the youngsters that probation doesn't mean a thing; it you behave." Anderson was introduced by LeRoy Smith, program chairman.

Ninety-eight Lions and guests attended the meeting with President Eugene R. Hartman presiding. There was a joint meeting of the Program and Special Activities committees after the club session.

Out Of The Past

From the Files of the
Star and Sentinel and
The Gettysburg Times

FIFTY YEARS AGO

The opinion handed down by Judge Swope on Monday refusing a new trial for William Eyer, who was recently found guilty of the murder of Howard Miller, was an able document, in which the learned jurist fully answered, in a legal and concise manner, all the reasons filed by Attorney Hersh, and reviewed at length the various details of the trial.

New Year's Day: The New Year was ushered in in Gettysburg in an appropriate manner. A few minutes before the clocks tolled the midnight hour the Citizens' Band appeared in the Diamond and as the old year died away and the new one was born sweet strains rent the air — the Band playing "Love and Honor." About the usual amount of shooting was indulged in and nearly all the whistles in the town were blown.

Watch night services were held in the College Lutheran church and there were a number of parties at private homes.

The day was quietly observed, many of the stores and public offices being closed. Services were held in a number of the churches.

Sold His Store: June F. Tipton and William Eden have purchased from Jesse E. Snyder his grocery store on York street. The new proprietors took charge January 1st. They are both live business men and Mr. Tipton has had considerable experience in the grocery business.

Mr. Snyder has engaged in the sewing machine business with his father, B. D. Snyder.

Wedding Bells: Bowers-Fissel: A very pleasant wedding took place at the home of Mr. and Mrs. William Fissel, near Greenmount, on last Wednesday, Jan. 2nd, when their daughter, Miss Ruth J., and Geary J. Bowers, of Harney, Md., were united in marriage by Rev. J. E. B. Rice, of Taneytown, Md.

Miss Lizzie Fissel, sister of the bride, was bridesmaid, and Frank Currens was groomsmen. The wedding march was played by Miss Verna Munshour, of Gettysburg.

The bride received many beautiful and useful gifts.

Starnes-Weigle: A pretty home wedding took place at the residence of Mr. and Mrs. J. A. Weigle, Menallen township, when Clayton S. Starnes, telegraph operator at Starnes' Station, and Miss Emma J. Weigle were united in marriage in the presence of about forty guests, on New Year's day.

Promptly at six o'clock the wedding march being played by Miss Lillian Weaver, niece of the bride, the bride and groom marched into the parlor attended by Miss Irene Wolf, cousin of the bride, and J. Willis Weigle, brother of the bride, when the ceremony was performed by Rev. S. A. Diehl, of Bendersville.

The wedding party stood beneath a beautiful arch decorated with holly and trailing pine. The bride was dressed in a suit of mode lainsdown, trimmed with white lace. After the congratulations all were invited to a fine dinner, the table being heavily laden with the delicacies of the season. The bride received many handsome and useful gifts.

The newly wedded couple will spend a week in Philadelphia, Atlantic City and Harrisburg. They will be at home after April 1st, at the present home of the bride.

Knows How To Raise Porkers: George Englebert, Seminary Ridge, who has the reputation of being a very successful hog raiser, killed two porkers, on New Year's day, eight months old, that weighed 243 and 262 respectively. Mr. Englebert desires to hear from any one who can beat this.

A Small Trick: Some evil disposed person cut a considerable amount of bark from one of the thriving maple trees near the Meade High school building one night recently. The authorities are trying to ferret out the guilty party, and if found, he will be dealt with to the full extent of the law.

Today's Talk

ENVY NO ONE!

It is so easy to envy someone else. But it gains us nothing. Envy no one — except happily! It is a mark of good sportsmanship to be glad of the other fellow's good luck. We should look into the circumstances that have brought good luck or fortune upon our friend. We can learn from it.

There are those who bitterly resent the success and fame of another. Genuine worth is not for a day or week but for long years ahead, in which that success and fame accumulate. We should rejoice at the happiness of another, no matter what the acclaim. The entire nation waited and prayed as Col. Lindbergh winged his way to Paris twenty-nine years ago, and it was thrilled that he succeeded in a perfect trip.

You can't take away from anyone the credit for a perfect feat, or one that has topped all others to date. I like to see a winner who takes his triumph by giving credit to those associated with him and who helped that triumph. That winner gains, not loses by it.

People who get jealous over the good fortune of someone else often know nothing of the strife and struggle during long years before the final acclaim arrived. I often wonder if such ones would go through that rugged training, including all the failures and sacrifices that seemed essential. Behind every great triumph physically is one far greater, a spiritual one!

How many a great character has stamped upon the lines and planes of his face the story of his experiences, his sufferings and his disappointments. There is something immortal in every fine portrait of Abraham Lincoln. He envied no one and stayed by his friends to the bitter end for so long as he had confidence in them.

Tomorrow Mr. Adams will talk on the subject: That Peace With—

Just Folks

EQUALITY

Some seek the golden road of fame,

And some for money toil,

Some want the plaudits of their game,

And some would till the soil.

Thus, differently are lives expressed,

Some service each must give,

And who can say which way is best.

If each shall nobly live?

The king is not a greater man

Than he who sows the seed;

If each one does the best he can

Each serves a human need.

If selfish the monarch sways,

The man of low estate

Who works to better human ways

Deserves the title, great.

'Tis not the place we seek that counts,

'Tis not the garb we wear,

The kind of work to naught amounts;

It's how we do our share,

And by the toll we choose to do

Our lives shall be expressed,

And more shall greater be than

If you have done your best.

Marie (The Body) Stars In
Police Movie Of Abduction

ENCINO, Calif. (AP)—Marie (The Body) McDonald, whose curves are far more dramatic than her histrionics, could claim some kind of award today for her performance in the police movie of the year.

In an all-talkie color film with police cameramen, the shapely actress re-enacted what she says was a terrifying midnight kidnapping from her palatial San Fernando Valley home.

The movie had everything any Cecil B. DeMille epic ever had — except camels. There were four scenes requiring six takes; a bedroom shot and an outdoor location; a producer and director (both policemen), and, of course, set coverage by a small army of Hollywood press.

"The Body Snatchers" One policeman gave it a title (already used by Hollywood) — "The Body Snatchers." An elaborate walkie-talkie system, manned by two police captains, gave the waiting reporters a blow-by-blow account of what took place inside. The officers, playing it heavily tongue-in-cheek, were openly ironic in their descriptions of Miss McDonald's allegations of terror.

Homicide Chief Robert Lohrman, whose voice will never give Ronald Coleman any competition, announced at the outset: "We now have Miss McDonald's permission to start the first scene." The scene was in the bedroom with the star in bed, wearing green pajamas.

Scene Shot Over It had to be shot over. A clumsy policeman stumbled over the wires, knocking out the sound. At the conclusion, Lohrman announced:

"That's the end of Scene 1." A professional movie man would have yelled "cut!" but the idea got across anyhow.

All this reenactment was to illustrate Miss McDonald's account of her ordeal. She had told authorities that two swarthy men abducted her from her house shortly before midnight Thursday and drove her to a hideout. There she managed, during Friday, to telephone three friends and report that she had been kidnapped. She didn't call police.

Some Temperament Late Friday night she was found wandering dazedly on the desert near Indio. A truck driver picked her up. Hospital attendants said she had a bruised face and two broken caps on her teeth. She was sent home in an ambulance to recover—and to re-enact the occurrence.

The final scene of yesterday's movie was shot outside. Lohrman's voice crackled: "I have talked to the director of this film and he has agreed to have her come beyond the cars parked in the driveway."

Later, he announced temperament from the star. She didn't want the news photographers to take her picture.

Ike To Be Host To
Saudi Arabian King

WASHINGTON (AP)—King Saud of Saudi Arabia will be a guest of President Eisenhower for several days beginning Jan. 30, and presumably the two will discuss Eisenhower's plan to block Red aggression in the Middle East.

The White House in an announcement yesterday said the purpose of King Saud's visit — from Jan. 30 through Feb. 1 — was for a discussion of Middle East matters "of mutual interest to the two nations."

The King, who succeeded to his throne in 1953, last visited this country in 197 as crown prince. Eisenhower will entertain at a stag dinner on the evening of Jan. 30 in honor of the King.

Saud has been outspoken in his opposition to Israel, but has had less to say about communism.

Endless Debate
Brings On Story

ANNAPOLIS (AP)—After listening to a seemingly endless debate on a relatively minor bill, State Sen. J. C. North rose in the Maryland Legislature last night to tell the one about a man who stole a ham hock on his way to church.

Seated in a front pew with the stolen ham hock tucked under his coat, he listened to a rousing sermon against the wages of sin, growing more uncomfortable with every fiery phrase. Finally, he hauled out the ham and surrendered it to an elder.

"Take it!" he pleaded. "I've never before heard so much hell raised over such a little piece of meat!"

"BUILDING BLOCKS"

Ppon the floor of just pretend Upon the floor of just pretend . . . the building blocks were piled . . . by tender fingers that belonged . . . to one small angel child . . . I watched a tower taking shape . . . designed with dreamy plans . . . put into action by a pair . . . of sweet rose petal hands . . . I marveled at the sight I saw . . . the wonder of each move . . . it seemed each block was destined for . . . a certain special groove . . . by leaps and bounds the structure grew . . . until at last 'twas done . . . the little engineer was proud . . . and having lots of fun . . . then almost without warning . . . the tower tumbled down . . . and in the midst of jumbled blocks . . . I saw a tear-splashed frown . . . but not for long, for smiles appeared . . . and hope was born anew . . . the magic will to try again . . . no wreckage could subdue.

All Invited In Later, she invited all the photographers into her living room and even posed for the newsreels. She repeated details of her ordeal, sobbed a little and then finished the interview in true actress fashion:

"I want to thank all of my friends and the many others who have been so kind as to write letters to me since this all happened. I want to say this is definitely not a hoax. And least of all, it's no publicity stunt."

"Why, I've had enough publicity. And anyway this is apt to ruin my career."

"I've Had It Today"

Tucked away in a corner — he denied that he was hiding — was British actor Michael Wilding. Miss McDonald's current romantic interest.

"I'm only here to cheer her up, and the poor kid needs it," Wilding, estranged husband of Liz Taylor, said gallantly. After the police movie was completed, Miss McDonald approached Wilding, leaning on a bar.

"Pour baby a drink," she cooed. "I've had it today."

At the conclusion of Mrs. Knowles' one-day trial late yesterday, the Judge said he "may take a day or two to consider this case." A jury trial was waived.

Mrs. Knowles, 46, is the librarian of a Quaker-operated library at Plymouth Meeting, Pa.

Her employment and the refusal of the library committee to fire her created what her attorney, Henry Sawyer III of Philadelphia, called "a great controversy." Sawyer said the "traditional Quaker dissenting position came into play" in the face of demands in the village near Philadelphia for Mrs. Knowles' dismissal as librarian.

In her testimony before the Subcommittee July 29 and Sept. 15, 1955, Mrs. Knowles challenged the group's authority to inquire into "one's thoughts and affiliations." She said she had had no connection "for many years now" with any subversive organization.

Mrs. Knowles, testifying before the same Subcommittee in Boston in 1953, declined to answer questions about Communism on the ground that to do so might incriminate her. She did not raise the Fifth Amendment's privilege against compulsory self-incrimination in her later appearances.

Except for the reading of Mrs. Knowles' testimony by J.C. Sourwine, Subcommittee Associate Counsel, the trial consisted entirely of formal exhibits and legal arguments.

Fired From Job After her 1953 testimony, Mrs. Knowles was fired from her job as a branch librarian at Norwood, Mass. The library committee said it was satisfied that Mrs. Knowles was a loyal citizen and had not been connected with any subversive group since 1947.

When Sourwine finished reading Mrs. Knowles' testimony, Asst. U.S. Atty. William Hitz rested the government's case. Sawyer moved for a judgment of acquittal. This was denied by Hitz.

Then Sawyer and Hitz repeated, with elaboration, their opening arguments, and the trial, except for the verdict still to come, was over.

Fired From Job After her 1953 testimony, Mrs. Knowles was fired from her job as a branch librarian at Norwood, Mass. The library committee said it was satisfied that Mrs. Knowles was a loyal citizen and had not been connected with any subversive group since 1947.

When Sourwine finished reading Mrs. Knowles' testimony, Asst. U.S. Atty. William Hitz rested the government's case. Sawyer moved for a judgment of acquittal. This was denied by Hitz.

Then Sawyer and Hitz repeated, with elaboration, their opening arguments, and the trial, except for the verdict still to come, was over.

Bullets Outclassed 86-50 At Penn State; Will Meet Hopkins Here Thursday

A completely outclassed Gettysburg College basketball squad dropped its fourth straight Monday evening to Penn State University 86-50 at University Park. The loss was the ninth in 11 starts for the Bullets and the win was the seventh against three reverses for the Lions.

A 3-2 zone defense employed by Penn State completely baffled the weak-shooting Bullets and during the entire first half the locals managed to land but five goals. At half time Penn State was riding comfortably on a huge 47-15 lead.

Only in the opening minutes was there any semblance of a contest. Del Warfield's goal tied the score at 2-2 and Bob Walsack landed a shot as the Bullets trailed 6-5. A run of 12 straight points gave the Lions an 18-5 bulge. It was just a question of playing out the game from that point. Ron Rainey tabbed 14 points in the half for Penn State before being forced out due to an injured ankle.

Early in the second half Gettysburg trailed by 29 points at 54-25 and that was as close as the Bullets ever got.

JACKIE SAYS HE IS TOO OLD TO PLAY BASEBALL

NEW YORK (AP)—One of the reasons that prompted Jackie Robinson's retirement was his deep conviction he no longer could be of any value to a major league ball club.

In a frank appraisal of himself, the former Brooklyn Dodgers star said today he felt he was too old to help the New York Giants, to whom he had been traded by Brooklyn last Dec. 13. He said it would be too much of an ordeal to try to play himself in proper shape to get again.

"Let's face it," he said. "I'm 38 years old. I'm not near the player I used to be. I don't think I would have been of any help to the Giants. They need much more than an old guy like me to put them back in contention."

Happy Over New York

"They've lost too many young players — fellows like Jackie Brandt and Bill White and Willie Kirkland — to the service. I wish the Giants all the luck in the world next year but I don't think they have much of a ball club."

Robinson, who announced his decision to quit baseball for a job with a restaurant chain, said one of the reasons he was happy over his new job was because it would relieve him of having to go through the torture of "trying to get in condition."

"I finished the 1956 season at 200 pounds," he said. "In order to give forth my best efforts I should be down to about 206-208 pounds when the season opens. Right now I weigh 228. It would be real torture to get down to playing weight and besides I don't know whether I'd be able to do it."

SPORTSMEN TO DISCUSS PLAN TO RAISE FEE

Adams County sportsmen will be given an opportunity to voice an opinion on the proposed increase in the Pennsylvania fishing license fee at a public meeting to be held at the Nu-Ox Rod and Gun Club, near New Oxford, on Thursday at 8 p.m.

Reimbursement Studied

The president of the commission, Stanley Smith, said it was still to be determined whether the commission would be reimbursed for the loss. He said that was a matter to be settled among the legal departments of the three state agencies involved.

The agencies are the commission, the university and the state sanitary water board, which has responsibility for enforcement of the clean streams laws and for antipollution.

HARVARD LOOKS FOR NEW COACH

CAMBRIDGE, Mass. (AP) — Harvard joined a half-dozen other major schools in search of a new football coach today after terminating Lloyd Jordan's seven years with the university.

Speculation as to a successor, which once centered on backfield coach Harold (Josh) Williams, ran in all directions.

The university's terse, one-sentence dismissal of Jordan made no mention of a replacement.

Campus criticism and reported friction on the coaching staff were believed to be factors in releasing Jordan two years before his contract had run out. He is expected to be paid from \$30,000 to \$25,000 to cover the balance.

Jordan came to Harvard in 1950. His team won 24 games, lost 31 and tied 3. In '56, Harvard had a 2-6 record in the first official year of Ivy League grid competition.

JAYHAWKS WIN 11TH STRAIGHT; BEAT SOONERS

By BEN OLAN
The Associated Press

The Kansas Jayhawks are threatening to make a rout of the Big Seven basketball race while protecting their No. 1 ranking among the nation's colleges.

With Wilt (The Stilt) Chamberlain grabbing 22 points, Kansas had rough going before defeating klahoma 59-51 last night. But the unbeaten Jayhawks have been winning 'em big (80-54 over Colorado) and small (59-57 over Iowa State). The triumph over the Sooners was their 11th.

Iowa State, tabbed as one of Kansas' chief contenders for the Big Seven crown, was trounced by Missouri 77-59.

Big Ten Action

There also was plenty of action in the Big Ten. When the firing was over, Ohio State and Indiana were ahead of the pack with 2-0 records.

The Buckeyes knocked off Purdue 75-68 and Indiana trounced Wisconsin 79-68. Illinois got back on the team with an 81-70 victory over defending champion Iowa. Michigan edged Michigan State 70-69.

Kentucky, ranked third in this week's Associated Press poll, finished strong to defeat Loyola of Chicago 81-62, and Vanderbilt, No. 6, dumped Georgia Tech 81-73 in a Southeastern Conference game.

Wilt In Entire Game

Chamberlain played the entire game for Kansas and dunked seven field goals and eight of nine free throws. He was outbounded by klahoma's Don Schwall 1-11. The Jayhawks, now 2-0 in the Big Seven, trailed 4-43 with seven minutes left in the game, but then connected for 12 straight points while holding the Sooners scoreless for five minutes.

Missouri slipped a tight defense around Iowa State star Gary Thompson and held him to 18 points. The Tigers ran up a 31-22 halftime lead and kept that margin most of the second half.

Ohio State trailed several times throughout the second half but Jim Laughlin's jump shot with four minutes left put them ahead for good.

Indiana never trailed and the 28

Marciano Has Urge To Return To Ring

HOLYOKE, Mass. (AP) — Retired world heavyweight boxing champion Rocky Marciano says he'll be true to his word but he finds the lure of the ring still haunts him.

"I still feel an urge to return to the ring and have had several offers, indirectly," Rocky said last night before refereeing the semi-final bout on the fight card at the Valley Arena.

"But you know," he added, "I'm a man of my word and when I say something I mean it (referring to his decision to quit)."

"I'm starting the second year of my retirement and I still like to put on the gloves but don't pin me down on any decision at the moment."

KANSAS HOLDS KINGPIN ROLE IN BASKETBALL

By THE ASSOCIATED PRESS

Kansas continued its reign as the kingpin of college basketball today according to the latest Associated Press poll of sports writers and broadcasters, but North Carolina's Tar Heels are awaiting just one faltering step.

The Jayhawks, with an 11-0 record, for the fifth consecutive week ranked No. 1. But Frank McGuire's club, with an identical record, was only 8 points back.

The two teams completely dominated the voting, heading all but nine of the 83 ballots cast. Kansas drew 5 first-place votes and 732 points while North Carolina received 29 top votes and 684 points on the basis of 10 for first, 9 for second, etc.

Kentucky, with four first-place nominations, remained in third place, followed by Southern Methodist, Louisville, Vanderbilt, Iowa State, UCLA, Seattle and Illinois.

No new teams were able to break the hold of the top 10, but there was some shuffling as a result of Illinois' loss to Minnesota Saturday. The Illini dropped from fifth to 10th with the others moving up or holding their positions.

Vanderbilt made the biggest jump among the leaders after handing Tennessee its first setback Saturday. They advanced from ninth to sixth.

Bullets Outclassed 86-50 At Penn State; Will Meet Hopkins Here Thursday

A completely outclassed Gettysburg College basketball squad dropped its fourth straight Monday evening to Penn State University 86-50 at University Park. The loss was the ninth in 11 starts for the Bullets and the win was the seventh against three reverses for the Lions.

A 3-2 zone defense employed by Penn State completely baffled the weak-shooting Bullets and during the entire first half the locals managed to land but five goals. At half time Penn State was riding comfortably on a huge 47-15 lead.

Only in the opening minutes was there any semblance of a contest. Del Warfel's goal tied the score at 2-2 and Bob Walsack landed a shot as the Bullets trailed 6-5. A run of 12 straight points gave the Lions an 18-5 bulge. It was just a question of playing out the game from that point. Ron Rainey tabbed 14 points in the half for Penn State before being forced out due to an injured ankle.

Early in the second half Gettysburg trailed by 29 points at 54-25 and that was as close as the Bullets ever got.

Rebounding Improves
About the only phase of the game in which the Bullets gave the Lions trouble was in rebounding. State captured 49 with Bob Edwards accounting for 11. The Bullets snared 47, nine of which were by Tom Cousins.

Gettysburg landed its 15 goals on 57 shots while the Lions looped 24 of 67. Captain Bob Leisher made good on five of as many shots from the floor for the winners. Jack Hathaway swished three of six tries and Bob Walsack four of nine for Gettysburg.

Johns Hopkins, coached by Ross Sachs, former Gettysburg College ace, comes here Thursday evening. In the preliminary game the Bullet frosh meet York Junior College at 6:45.

POISONED FISH COST \$74,441

HARRISBURG (AP)—The death by chemical of nearly 150,000 trout in a Centre County tributary was a \$74,441 loss, the Pennsylvania Fish Commission estimates.

The commission previously had made a tentative estimate of \$100,000. It said yesterday, however, that 30,000 trout removed from the Spring Creek tributary had been saved.

A total of 147,072 trout died Dec. 1 from sodium cyanide in the water, the commission said.

Responsibility for the pollution has been assumed by Pennsylvania State University. University authorities have said the chemical came from the U.S. Navy laboratory on the campus.

Reimbursement Studied

The president of the commission, Stanley Smith, said it was still to be determined whether the commission would be reimbursed for the loss. He said that was a matter to be settled among the legal departments of the three state agencies involved.

SPORTSMEN ARE FEEDING GAME

Many Pennsylvania sportsmen who have retired their sporting arms until next fall have undergone the usual transformation. Whereas they shot to kill wild game last season, now they turn to caring for species that need help during the critical months ahead.

Hunters in the mountains last fall observed they had been correctly informed by Game Commission personnel and wildlife management people at Penn State University that natural foods for forest game would be in short supply this winter. The late May and early June freezes last year all but ruined the nut and wild cherry crop and seriously reduced the production of other game foods. Wild turkeys, particularly, need assistance in such a situation.

The Game Commission is taking measures to overcome this condition in mountain areas by maintaining numerous, 50-bushel turkey feeders, most of them in out-of-the-way forest localities where the large birds are known to flock in winter. Ear corn is usually transported to these feeders before the arrival of deep snow. The supply is replenished periodically, especially in late winter when most natural foods have been consumed and fresh sustenance is not yet available.

Continuing their efforts of the past, sportsmen have set up extensive winter feeding operations. They do a real service by locating the birds in new localities where corn was not formerly placed. Numerous sportsmen's clubs, farmers and other individuals have already put out ear corn in feeders built where wild turkeys congregate in winter. Such feeding is also done by hunting camp members who build feeders near their hunting headquarters.

The state's wildlife people are of the opinion that, through this widespread, cooperative program, most of Pennsylvania's wild turkey population will find supplemental food available during the emergency period.

ARIZIN TAKES SCORING LEAD

NEW YORK (AP)—Things aren't breaking so well for the St. Louis Hawks of the National Basketball Assn.

They lost their coach yesterday when Red Holzman quit. They've dropped into last place in the loop's Western Division. And now, Bob Pettit, the Hawks' big gun, has relinquished the individual scoring lead to Philadelphia's Paul Arizin.

Arizin took over the top spot on the strength of a 17-point spree in four games last week. He has scored 884 to Pettit's 877. The Warriors' ace, however, has played in two more games than his closest contender. So his average is 25.3 points a game to Pettit's 26.6.

Four other players are averaging better than 20 points a game as the campaign nears the halfway mark. Neil Johnston of Philadelphia is third with 829 points and a 23.7 average. He's followed by Clyde Lovellette of Minneapolis with 752 points and 22.1; Bob Cousy of Boston with 721 and 21.8 and Dolph Schayes of Syracuse with 690 and 22.3.

Reagan met with the Very Rev. James A. Donnell O.S.A., Villanova president, last night and signed the new agreement. Reagan succeeds Ambrose F. (Bud) Dudley, who resigned last week as director of athletics because Villanova was changing the "level and area" of its football competition.

HARVARD LOOKS FOR NEW COACH

CAMBRIDGE, Mass. (AP)—Harvard joined a half-dozen other major schools in search of a new football coach today after terminating Lloyd Jordan's seven years with the university.

Speculation as to a successor, which once centered on backfield coach Harold (Josh) Williams, ran in all directions.

The university's terse, one-sentence dismissal of Jordan made no mention of a replacement.

Campus criticism and reported friction on the coaching staff were believed to be factors in releasing Jordan two years before his contract had run out. He is expected to be paid from \$20,000 to \$25,000 to cover the balance.

Jordan came to Harvard in 1950. His team won 24 games, lost 31 and tied 3. In '56, Harvard had a 2-6 record in the first official year of Ivy League grid competition.

Hollywood Stars Give Rickey Office

HOLLYWOOD (AP)—Election of Branch Rickey Sr. as board chairman of the Hollywood Stars tightens the link between the Pacific Coast League baseball club and the National League Pittsburgh Pirates. The clubs have had a working agreement for some time.

Rickey, who was 75 last Dec. 20, also is chairman of the Pirates. He was here yesterday for the Hollywood directors meeting when he was elected to succeed the late Victor Ford Collins, who died last November.

Out Of The Past

From the Files of the Star and Sentinel and The Gettysburg Times

FIFTY YEARS AGO

The opinion handed down by Judge Swope on Monday refusing a new trial for William Eyer, who was recently found guilty of the murder of Howard Miller, was an able document, in which the learned jurist fully answered, in a legal and concise manner, all the reasons filed by Attorney Hersh, and reviewed at length the various details of the trial.

New Year's Day: The New Year was ushered in at Gettysburg in an appropriate manner. A few minutes before the clocks tolled the midnight hour the Citizens' Band appeared in the Diamond and as the old year died away and the new one was born sweet strains rent the air - the Band playing "Love and Honor." About the usual amount of shooting was indulged in and nearly all the whistles in the town were blown.

Watch night services were held in the College Lutheran church and there were a number of parties at private homes.

The day was quietly observed, many of the stores and public offices being closed. Services were held in a number of the churches.

Sold His Store: June F. Tipton and William Eden have purchased from Jesse E. Snyder his grocery store on York street. The new proprietors took charge January 1st. They are both live business men and Mr. Tipton has had considerable experience in the grocery business.

Mr. Snyder has engaged in the sewing machine business with his father, B. D. Snyder.

Wedding Bells: Bowers-Fissel: A very pleasant wedding took place at the home of Mr. and Mrs. William Fissel, near Greenmount, on last Wednesday, Jan. 2nd, when their daughter, Miss Ruth J., and Geary J. Bowers, of Harney, Md., were united in marriage by Rev. J. E. B. Rice, of Taneytown, Md.

Miss Lizzie Fissel, sister of the bride, was bridesmaid, and Frank Currens was groomsmen. The wedding march was played by Miss Verna Munshour, of Gettysburg.

The bride received many beautiful and useful gifts. Starnes-Weigle: A pretty home wedding took place at the residence of Mr. and Mrs. J. A. Weigle, Menallen township, when Clayton S. Starnes, telegraph operator at Starnes' Station, and Miss Emma J. Weigle were united in marriage in the presence of about forty guests, on New Year's day.

Promptly at six o'clock the wedding march being played by Miss Lillian Weaver, niece of the bride, the bride and groom marched into the parlor attended by Miss Irene Wolf, cousin of the bride, and J. Willis Weigle, brother of the bride, when the ceremony was performed by Rev. S. A. Diehl, of Bendersville.

The wedding party stood beneath a beautiful arch decorated with holly and trailing pine. The bride was dressed in a suit of mode landstau trimmed with white lace. After the congratulations all were invited to a fine dinner, the table being heavily laden with the delicacies of the season. The bride received many handsome and useful gifts.

The newly wedded couple will spend a week in Philadelphia, Atlantic City and Harrisburg. They will be at home after April 1st, at the present home of the bride.

Knows How To Raise Porkers: George Englebert, Seminary Ridge, who has the reputation of being a very successful hog raiser, killed two porkers on New Year's day, eight months old that weighed 243 and 262 respectively. Mr. Englebert desires to hear from any one who can beat this.

A Small Trick: Some evil disposed person cut a considerable amount of bark from one of the thriving maple trees near the Meade High school building one night recently. The authorities are trying to ferret out the guilty party, and if found, he will be dealt with to the full extent of the law.

Today's Talk

ENVY NO ONE:
It is so easy to envy someone else. But it gains us nothing. Envy no one - except happily! It is a mark of good sportsmanship to be glad of the other fellow's good luck. We should look into the circumstances that have brought good luck or fortune upon our friend. We can learn from it.

There are those who bitterly resent the success and fame of another. Genuine worth is not for a day or week but for long years ahead, in which that success and fame accumulate. We should rejoice at the happiness of another, no matter what the acclaim. The entire nation waited and prayed as Col. Lindbergh winged his way to Paris twenty-nine years ago, and it was thrilled that he succeeded in a perfect trip.

You can't take away from anyone the credit for a perfect feat, or one that has topped all others to date. I like to see a winner who takes his triumph by giving credit to those associated with him and who helped that triumph. That winner gains, not loses by it.

People who get jealous over the good fortune of someone else often know nothing of the strife and struggle during long years before the final acclaim arrived. I often wonder if such ones would go through that rugged training, including all the failures and sacrifices that seemed essential. Behind every great triumph physically is one far greater, a spiritual one!

How many a great character has stamped upon the lines and planes of his face the story of his experiences, his sufferings and his disappointments. There is something immortal in every line of his face. Abraham Lincoln. He envied no one and stayed by his friends to the bitter end for so long as he had confidence in them.

Tomorrow Mr. Adams will talk on the subject: That Peace With-

Just Folks

EQUALITY
Some seek the golden road of fame,
And some for money toll,
Some want the plaudits of their game,
And some would till the soil.
Thus, differently are lives expressed.
Some service each must give,
And who can say which way is best.
If each shall nobly live?
The king is not a greater man
Than he who sows the seed;
If each one does the best he can
Each serves a human need.
If selfish the monarch sways,
The man of low estate
Who works to better human ways
Deserves the title, great.

Marie (The Body) Stars In Police Movie Of Abduction

ENCINO, Calif. (P)—Marie (The Body) McDonald, whose curves are far more dramatic than her histrionics, could claim some kind of award today for her performance in the police movie of the year.

In an all-talkie color film with police cameramen, the shapely actress re-enacted what she says was a terrifying midnight kidnapping from her palatial San Fernando Valley home.

The movie had everything an Cecil B. DeMille epic ever had - except camels. There were four scenes requiring six takes: a bedroom shot and an outdoor location; a producer and director (both policemen), and of course set coverage by a small army of Hollywood press.

"The Body Snatchers"

One policeman gave it a title (already used by Hollywood) - "The Body Snatchers."

An elaborate walkie-talkie system, manned by two police captains, gave the waiting reporters a blow-by-blow account of what took place inside. The officers, playing it heavily tongue-in-cheek, were openly ironic in their descriptions of Miss McDonald's allegations of terror.

Homicide Chief Robert Lohrman, whose voice will never give Ronald Coleman any competition, announced at the outset:

"We now have Miss McDonald's permission to start the first scene." The scene was in the bedroom with the star in bed, wearing green pajamas.

Scene Shot Over

It had to be shot over. A clumsy policeman stumbled over the wires, knocking out the sound. At the conclusion, Lohrman announced:

"That's the end of Scene 1." A professional movie man would have yelled "cut!" but the idea got across anyhow.

All this reenactment was to illustrate Miss McDonald's account of her ordeal. She had told authorities that two swarthy men abducted her from her house shortly before midnight Thursday and drove her to a hideout. There she managed, during Friday, to telephone three friends and report that she had been kidnapped. She didn't call police.

Some Temperament

Late Friday night she was found wandering dazedly on the desert near Indio. A truck driver picked her up. Hospital attendants said she had a bruised face and two broken caps on her teeth. She was sent home in an ambulance to recover—and to re-enact the occurrence.

The final scene of yesterday's movie was shot outside. Lohrman's voice crackled:

"I have talked to the director of this film and he has agreed to have her come beyond the cars parked in the driveway."

Later, he announced temperament from the star. She didn't want the news photographers to take her picture.

"We're going to plead with her on bended knee," Lohrman assured.

The 33-year-old actress, by now wearing a fancy quilted robe that defied cheesecake, came out for the final fadeout. Carried away by the drama of the moment, she did not stop at the agreed upon spot but came right up to where the photographers were massed.

Putting a hand up to her blackened eye and swollen face, she exclaimed: "This is a great way to be photographed."

All Invited In

Later, she invited all the photographers into her living room and even posed for the newsreels. She repeated details of her ordeal, sobbed a little and then finished the interview in true actress fashion:

"I want to thank all of my friends and the many others who have been so kind as to write letters to me since this all happened. I want to say this is definitely not a hoax. And least of all, it's no publicity stunt."

"Why, I've had enough publicity. And anyway this is apt to ruin my career."

"I've Had It Today"

Tucked away in a corner - he denied that he was hiding - was British actor Michael Wilding. Miss McDonald's current romantic interest.

"I'm only here to cheer her up, and the poor kid needs it," Wilding, estranged husband of Liz Taylor, said gallantly. After the police movie was completed, Miss McDonald approached Wilding, leaning on a bar.

"Pour baby a drink," she cooed. "I've had it today."

MINER, 76, WINS AN ACQUITTAL

GEORGETOWN, Colo. (P)—A 76-year-old miner has won a directed verdict of acquittal on a charge of murdering a uranium mining company executive here.

Dist. Judge Martin P. Miller ordered the verdict freeing William A. Bergman yesterday.

Bergman was accused of the slaying of Harvey W. Zook, 2, secretary-treasurer of the Mountain States Uranium Co., whose body was found in an abandoned mine shaft with 11 bullet wounds in June, 1955.

Disposes Trash

Zook was last seen alive as he went to dispose of household trash at the mine shaft. With him at the time were his widow, Elizabeth, of Lancaster, Pa., and their children. They waited in the family auto while Zook took the trash to the shaft. Mrs. Zook, who now

lives in Lancaster, has five children.

Dist. Atty. George G. Priest, joined the defense in asking for the directed verdict.

After Bergman's acquittal, his brother, George, 68, was sentenced to 6-1 years in prison for the ambush shooting of William last Aug. 17.

Ike To Be Host To Saudi Arabian King

WASHINGTON (P)—King Saud of Saudi Arabia will be a guest of President Eisenhower for several days beginning Jan. 30, and presumably the two will discuss Eisenhower's plan to block Red aggression in the Middle East.

The White House in an announcement yesterday said the purpose of King Saud's visit - from Jan. 30 through Feb. 1 - was for a discussion of Middle East matters "of mutual interest to the two nations."

The King, who succeeded to his throne in 1953, last visited this country in 197 as crown prince.

Eisenhower will entertain at a stag dinner on the evening of Jan. 30 in honor of the King.

Saud has been outspoken in his opposition to Israel, but has had less to say about communism.

Endless Debate Brings On Story

ANNAPOLIS (P)—After listening to a seemingly endless debate on a relatively minor bill, State Sen. J. C. Norton rose in the Maryland Legislature last night to tell the one about a man who stole a ham hock on his way to church.

Seated in a front pew with the stolen ham hock tucked under his coat, he listened to a rousing sermon against the wages of sin, growing more uncomfortable with every fiery phrase. Finally, he hauled out the ham and surrendered it to an elder.

"Take it!" he pleaded. "I've never before heard so much hell raised over such a little piece of meat!"

"BUILDING BLOCKS"

Ppon the floor of just pretend Upon the floor of just pretend . . . the building blocks were piled . . . by tender fingers that belonged . . . to one small angel child . . . I watched a tower taking shape . . . designed with dreamy plans . . . put into action by a pair . . . of sweet rose petal hands . . . I marveled at the sight I saw . . . the wonder of each move . . . it seemed each block was destined for . . . a certain special groove . . . by leaps and bounds the structure grew . . . until at last 'twas done . . . the little engineer was proud . . . and having lots of fun . . . then almost without warning . . . the tower tumbled down . . . and in the midst of jumbled blocks . . . I saw a tear-splashed frown . . . but not for long, for smiles appeared . . . and hope was born anew . . . the magic will to try again . . . no wreckage could subdue.

HAS CONTEMPT CHARGES FILED ON LIBRARIAN

WASHINGTON (P)—Federal District Judge Ross Rixley today had under consideration contempt of Congress charges against Mrs. Mary Knowles who refused to answer questions about past Communist affiliations before the Senate Internal Security Subcommittee in 1955.

At the conclusion of Mrs. Knowles' one-day trial late yesterday, the Judge said he "may take a day or two to consider this case." A jury trial was waived.

Mrs. Knowles, 46, is the librarian of a Quaker-operated library at Plymouth Meeting, Pa.

Her employment and the refusal of the library committee to fire her created what her attorney, Henry Sawyer III of Philadelphia, called "a great controversy." Sawyer said the "traditional Quaker dissenting position came into play" in the face of demands in the village near Philadelphia for Mrs. Knowles' dismissal as librarian. In her testimony before the Sub-

committee July 29 and Sept. 15, 1955, Mrs. Knowles challenged the group's authority to inquire into "one's thoughts and affiliations." She said she had had no connection "for many years now" with any subversive organization.

Mrs. Knowles, testifying before the same Subcommittee in Boston in 1953, declined to answer questions about Communism on the ground that to do so might incriminate her. She did not raise the Fifth Amendment's privilege against compulsory self-incrimination in her later appearances.

Except for the reading of Mrs. Knowles' testimony by J.C. Sourwine, Subcommittee Associate Counsel, the trial consisted entirely of formal exhibits and legal arguments.

Fired From Job

After her 1953 testimony, Mrs. Knowles was fired from her job as a branch librarian at Norwood, Mass. The library committee said it was satisfied that Mrs. Knowles was a loyal citizen and had not been connected with any subversive group since 1947.

When Sourwine finished reading Mrs. Knowles' testimony, Asst. U.S. Atty. William Hitz rested the government's case. Sawyer moved for a judgment of acquittal. This was denied by Rixley.

Then Sawyer and Hitz repeated, with elaboration, their opening arguments, and the trial, except for the verdict still to come, was over.

BRITAIN, FRANCE ARE AGREED ON TALKS ON CANAL

By JOHN SCALI
WASHINGTON (P)—Britain and France were reported today to have agreed to a plan for indirect talks with Egypt on a Suez Canal settlement with U. N. Secretary General Dag Hammarskjöld acting as intermediary.

The Egyptian government refuses to meet fact to face with British and French diplomats on the Suez problem.

There is hope the discussions can be started within a few days, but no specific time has yet been fixed.

U. S. Not In On Talks

The United States would stay out of the talks, to be held in New York, but would be ready to use its influence with both sides to speed a settlement.

Under the plan, officials said, Hammarskjöld would meet with the British and French to hear their views, then relay these views to the Egyptians, who would be in another room.

He would pass on their reaction to the British and French and continue to move back and forth between the two groups with the aim of drafting a settlement all could agree upon.

Starting Point

The starting point would be the six principles the parties agreed upon Oct. 13 in direct talks at the United Nations, before the British-French-Israeli attack on Egypt.

The principles provide for unrestricted canal transit "without discrimination, overt and covert"; respect for Egypt's sovereignty; removal of canal operation from the politics of any country; an agreement fixing tolls between Egypt and canal users; allocation of "a fair proportion" of dues to canal development; and arbitration of disputes.

RED PREMIER OF CHINA FLIES TO SOVIET CAPITAL

MOSCOW (AP) — Premier Chou En-lai flew into Moscow Monday for a three-day stopover enroute to visits to two of the most crucial areas of the Communist world—Poland and Hungary.

The announced purpose of Chou's trip to Europe was to make a promised state visit to Poland where Wladyslaw Gomulka, the new party leader, is apparently anxious to convince the Chinese Communists that he is on a proper path. Tass reported from Peiping that Chou would continue on to Budapest for a meeting with the Janos Kadar government.

The Chinese Communist leader had just returned to Peiping from a tour of India, Pakistan and Burma before leaving for Moscow. Soviet President Klementi Voroshilov, Premier Nikolai Bulganin and party boss Nikita Khrushchev were waiting to grasp Chou's outstretched hand as he emerged from the plane.

Molotov On Hand
Also on hand were Deputy Premiers V. M. Molotov, Anastas Mikoyan, Lazar Kaganovich and Foreign Minister Dmitri Shepilov.

In a speech at the southern Siberian city of Irkutsk en route, Chou described the unity of Communist China and Russia as "the main guarantee of universal peace."

The Chinese radio said Chou, who also is foreign minister, was accompanied by Vice Premier Marshal Ho Lung and Vice Foreign Minister Wang Chih-shang. After his visits to Moscow, Warsaw and Budapest, Chou will complete his interrupted Asian tour with visits to Nepal and Afghanistan.

Chou's visit to Poland and Hungary so soon after the upsurge of the wave of anti-Sovietism in

2 GUNMEN ROB COTTON CLUB

MIAMI BEACH, Fla. (AP)—Two hooded gunmen held up the Cotton Club, prominent Miami Beach night spot, Monday and escaped with \$35,000 in cash. They left the owner and manager bound with cords from a venetian blind.

George Weinger, 43, owner of the club, and Jerry Hirsch, 46, the manager, untied themselves in a few minutes after the robbers left and called police.

Weinger told officers he and Hirsch went to a nearby restaurant for coffee after closing the club at 5 a.m. When they returned, the robbers were inside. "I felt a big gun at my head and a voice said, 'Don't move,'" Weinger related. Hirsch said the other robber jammed a pistol into his side.

Weinger was forced to open the safe. It contained about \$35,000, he said, including the club's receipts from Friday through Sunday, and \$6,000 which belonged to bandleader Cab Calloway, who is currently appearing at the club. Weinger said the robbers also took \$70 out of his pockets and about \$500 from Hirsch's wallet.

ONE KILLED IN CRASH OF LINER

TULSA, Okla. (AP)—Only six miles north of Tulsa Municipal Airport, an American Airlines passenger plane tore into a partially wooded area on Sunday, narrowly missing a power line and scrub oak trees and fatally injuring one passenger.

The other six passengers and three crewmen were hospitalized but none reported in critical condition. The dead woman was Mrs. Nell Tobler, 70, Tulsa.

Paul Johnson, 33-year-old copilot of Tulsa, walked and crawled almost a mile to a farm house for help. The two-engine Convair — en-

those two countries was viewed both in Hong Kong and Moscow as evidence that the Chinese regime is playing an increasingly influential and independent role in world Communism.

The Chinese Communists seem to be making it plain that although they support Russia as an expedient to keep the Communist world from falling apart, they will not accept blindly Moscow's version of what happened in Hungary and Poland.

SNOW DELAYS SWEARING IN OF TWO JUDGES

PHILADELPHIA (AP) — Charles Alvin Jones, Pennsylvania's 48th chief justice, presided today at his first session of the State Supreme Court.

Only five justices were seated when Jones formally opened the 1957 court term. One of his first official acts was the scheduled swearing in of two new members of the court—Democrat Herbert B. Cohen of York and Republican Benjamin R. Jones of Wilkes-Barre. But the ceremony was delayed to await the arrival of a delegation from York.

The first snowfall of 1957 in this area plagued the court's well-laid plans, forcing an 1½-hour postponement of the swearing in ceremonies for the two new justices.

Court Convened At 10 A.M.
Chief Justice Jones convened the court promptly at 10 a.m.—the scheduled starting time—and then announced that a delegation of lawyers from York County had been forced to park their cars at Lancaster and take the train into Philadelphia.

"This is an important occasion for Justice Cohen and we feel that all his friends who desire to attend should have an opportunity to witness this ceremony today," the chief justice said.

Plans for the court to hand down a few opinions still remaining from last year's docket also were

route from Providence, R. I., to Tulsa — was piloted by Wesley G. Mims, 34, Tulsa. He is a veteran of 10 years with American.

No cause for the crash has been disclosed.

The plane apparently brushed a power line as it pancaked into the field. It skidded about 400 feet between rows of scrub oak trees, one of which smashed the right wing. It did not burn.

FINISH BASE AT SOUTH POLE

McMURDON SOUND, Antarctica (AP) — U. S. Navy Seabees have finished building a U. S. base at the South Pole. It will be home during the approaching antarctic winter to 18 American scientists and Navy men who will make observations for the International Geophysical Year.

The Seabees in six weeks put up seven buildings on the two-mile-high plateau around the pole. Prefabricated parts for the building were dropped by parachute to the 24-man construction party.

Lt. Richard A. Bowers of Harrisburg, Pa., who directed the construction flew back to McMurdoo Sound with the last of his Seabee group. He left behind Dr. Paul A. Siple of Washington, D. C., leader of the scientific expedition, and eight Navy men commanded by Lt. Jack Tuck of Auburn, Mass.

The rest of the scientists are en route to Antarctica by ship.

NAB 2 NEGROES AS SUSPECTS IN BOY'S SLAYING

SIKESTON, Mo. (AP) — Police arrested two Negroes on Sunday night and spirited them away for questioning about the Saturday night slaying of an 18-year-old high school football player and the assault of his girl friend.

More than 100 possemen fanned out through the southeast Missouri Delta country in a day-long manhunt on Sunday, setting up road-

delayed. Among those present for the special ceremonies were Gov. Leader; Atty. Gen. Thomas D. McBride who succeeded Cohen; former Govs. Arthur James and John S. Finn; both from Luzerne County and both ex-members of the State Superior Court.

RED ATTACK IN MIDDLE EAST TO BE MET BY U. S. FORCES: DULLES

WASHINGTON (AP)—Secretary of State Dulles told Congress Monday that the way to peace in the Middle East is to make it clear "that armed Communist attack would have to be met, if need be, by the armed forces of the United States."

"You may feel, I do feel," Dulles told a crowded public meeting of the House Foreign Affairs Committee "that there is in fact no doubt as to what the Congress would do if international commu-

blocks and searching Negro settlements house to house.

About 25 high school youngsters gathered at one time in front of the Sikeston jail but there was no disorder.

Withhold One Name
Lt. Eldridge F. Dampf of the Missouri highway patrol said one of the men under arrest was Claude (Booth) Lacksley, 61-year-old Sikeston handyman.

The name of the other Negro was not disclosed. Dampf said he was a friend of Lacksley and was picked up for questioning about a .32 pistol.

Victim of the shooting was John Malugan, who lived at Charleston, Mo., 14 miles east of Sikeston.

Police said 18-year-old June Castleberry of Sikeston told them she and Malugan were parked on a country road just outside Sikeston when a Negro approached the car.

She related Malugan told the man to move on but he pulled a gun and fired, hitting Malugan in the chest. Miss Castleberry said the Negro dragged her from the car across a cotton field to the porch of a vacant house and attacked her.

New Civil Rights Fight Is Brewing

WASHINGTON (AP) — Congress, fight over civil rights proposals seemed likely today to break out again in about two weeks, this time in the House.

Chairman Celler (D-NY) of the House Judiciary Committee said in an interview that civil rights bills have "No. 1 priority" with that group.

construction with a wooden floor topped by amesite. The wooden floor is rotting out, Rebert said, and needs to be replaced. He recommended replacing with wooden base and amesite top "because for about \$300 we will have a bridge that will last another 20 years and I think by that time we will have to replace the bridge with a 50-foot bridge as Water St. develops in that section."

Borough Engineer LeRoy Winebrenner said the borough workmen will remove the present floor of the bridge, clean the steel beams underneath and then replace the flooring. During the work the bridge will be closed for about three weeks, Winebrenner said.

New Building Not Discussed Similar replacement of the floor of the bridge over the Tiber on Fourth St. was mentioned, but Winebrenner said he believes that work can be postponed to next year.

No discussion was held on the possibility of the town purchasing a new building to replace the present fire house and borough offices. The only mention was indirect when the secretary asked if the "should read Mr. Epley's letter." Council President Oyer said: "No, I think all of the councilmen are familiar with it."

The borough secretary, Mrs. Wilma Dracha, read a petition from William H. Musser Jr., S. Blaine Miller, Joel L. Hill and Francis L. Sanders, trading as Colt Park Development Co., for annexation of property owned by them in the southern section of the Colt Park area into the borough. The section of land, extending to the government land, is now part of Cumberland Twp.

Want 8 Fire Plugs The borough engineer was directed to make a map of the area and the borough solicitor was directed to draw up an annexation ordinance to be submitted at the February meeting of council.

Eight new fire plugs were recommended by Burgess Weaver, in a letter read to council. Weaver said he, Fire Chief Donald McSherry and Assistant Chief Donald Staub had surveyed the town and recommended fire plugs near these sites: Long Lane at Queen, Fairview at Queen, Johns at Queen, King at Highland, Johns at King, Culp at Johns, Fourth at E. Middle and Fifth at E. Middle St.

Actual location of the fire plugs within those areas will be made by the fire chief and manager of the water authority. The matter was turned over to the safety and utility committees to make final recommendation next month.

A deed from Colt Park Development Company to the borough was read. The deed is for the extension of Johns Ave. between Culp and King Sts. The highway committee was directed to make the customary check of the grade and the solicitor was directed to draw up an ordinance for presentation next month.

Big Check Coming Borough Engineer Winebrenner reported that the town will soon receive a check for \$12,500 from the state representing state aid for streets. The amount is fair in excess of sums received previously from the state and Winebrenner said it had been explained to him that it represents increased state aid to boroughs and other governmental bodies for street and road work.

Attorney Thomas Pyle, of the finance committee for the Adams County Free Library, asked increased assistance from town council for the library. The borough has been donating \$800 a year toward the library.

Councilman Mahlon P. Hartzell suggested council consider painting lines for parking spaces on streets which do not have meters, holding that such lines would increase the number of cars which can park on the streets.

Council authorized the placing of a 36-inch storm sewer across Johns St. near the Redding property "to take care of the borough's part of the drainage problem there."

QUARTET WELL

(Continued from Page 1)

moved their household from Leipzig to Dresden. He was greatly influenced by Haydn and Mozart.

Gypsy Influence A Gypsy influence was felt in the closing presentation, Brahms' "Piano Quartet in G Minor, Op. 25, No. 1," including the allegro, intermezzo: Allegro ma non troppo, andante con moto, and Rondo alla Zingaresse: Presto. Though born in Hamburg, Brahms spent the greater part of his life in Vienna. Hungarian music, much in evidence in that city, fascinated the composer and quite a number of gypsy movements are found in his chamber music but nowhere is it better displayed than in the concluding selection at Monday's concert.

The musicians received a number of congratulatory letters and to collect autographs. The quartet left for New York City Monday night where they will appear at the Metropolitan Museum this week.

On March 30 the concert association will present its third and final concert this season, "The Vienna Academy Chorus."

figure the cost of dropping 3,000 tons of bombs, which we did with 2,700 flights to stop the German breakthrough at St. Lo. We dropped 3,000 tons of bombs and the Germans suffered ten per cent casualties. Today we would drop one atomic bomb and secure 80 per cent casualties. Frightening as it is, we have entered a new age, the atomic age.

"I don't think anyone today can visualize all the changes that will come about as a result of the atomic age. And the atom bomb, like the airplane, is an instrument for good or for evil, depending on how man uses it."

Shows AF Film Col. Williams concluded his talk by showing a new Air Force film depicting the work of cadets in Air Force ROTCs. He noted that "80 per cent of the officers of the armed forces today come from the ROTC units in the nation."

Dr. Harold Dunkelberger, vice president of Rotary, announced that Dr. George N. Ewing will present his classification talk next Monday evening. Attorney Eugene V. Bullett will speak on "How I Came to Gettysburg," in a series of similar talks being held weekly. Frank N. Britcher gave the talk Monday evening.

President John Hostetter presided at the meeting with 59 present. John Hewetson, who had been the Gettysburg High School student "member" of Rotary during December introduced John Weber who will fill that post in January.

RAISE \$117 ON "BLUE CRUTCH"

The "Blue Crutch" campaign conducted by Richard J. Gross Post 8896, VFW, East Berlin, and its auxiliary raised \$117.22 for the March of Dimes, Lois S. Baker announced today.

Members of the VFW and auxiliary canvassed the East Berlin banks, post office and business places and secured \$117.22 from a community with a population of 1,079.

Mrs. J. E. Codori, chairman of the March of Dimes, expressed the appreciation of her organization to the East Berlin VFW and the people of that community and noted that this year's campaign exceeded last year's result. In the first "Blue Crutch" sale for the March of Dimes last year the East Berlin VFW raised about \$90.

All of the Veterans of Foreign Wars posts of the county are planning "Blue Crutch" sales to help the polio foundation drive. The other posts will hold their sales later.

Shepherd College, with an enrollment of about 800 students, is a recognized, state-supported, four-year teacher training and liberal arts college under the supervision of the West Virginia Board of Education. The college is accredited by the American Association of Colleges for Teachers Education and the North Central Association of Colleges and Secondary Schools. It was founded in 1871.

A similar scholarship has been in effect at Gettysburg College since 1954 with three students presently pursuing their college education under this plan.

AUTO, TRUCK COLLIDE

A car driven by Donald Gilbert, 34, York, and a pickup truck driven by Sterling Thomas, 45, York Springs R. 1, collided in York Monday at 5 p.m. York police said. No one was reported hurt. Damage was estimated at \$25 to the car. There was no damage to the truck.

THREE MISHAPS IN HANOVER ARE BEING PROBED

Paul A. Welch, 33, Taneytown R. D., in default of \$500 bond set at a hearing Sunday before Justice of the Peace William Y. Nail, Hanover, was committed to the York County jail for court action after pleading guilty to a charge of operating a motor car while under the influence of intoxicants. Welch, Hanover police said, was the driver of a car which collided with a parked car owned by Irvin C. Auchey, Hanover, about 8:20 p.m. Saturday.

Police reported Welch's auto pushed the Auchey car into a utility pole. The driver then made temporary repairs to his car and continued to High St., stopping at a service station where he was apprehended. He was taken before a physician who pronounced him unfit to drive. Damage to his car was estimated at \$200 and to the Auchey machine at \$150.

Another collision occurred about 4 a.m. Sunday when a car driven by Bernard C. Eckenrode, 33, Littlestown R. 1, crashed into a parked car owned by the Valley Motors Co., Hanover.

Police said Eckenrode was traveling west on Frederick St. when his auto veered to the left, crashed into the parked car, then stopped in front of 399 Frederick St., leaving skid marks from the point of impact for a distance of 165 feet. Police estimated damage to the Valley Motors Co. car at \$1,000 and to Eckenrode's machine at \$800. Eckenrode was charged with reckless driving and leaving the scene of an accident without revealing his identity.

A third collision occurred about 10:15 p.m. Sunday when a car driven by Cyril A. Elitz, 49, McSherrystown, was in collision with a car driven by Paul F. Null, Hanover.

Police reported Elitz veered his auto to the left of the center of the street and hit the Null car which had been pulled to the curb to avoid an accident. Null's damage was estimated at \$50 and Elitz's \$25. Elitz was charged by police with driving to the left of the highway.

Information against the various drivers were laid before Justice of the Peace William Y. Nail Jr., Hanover.

construction with a wooden floor topped by amesite.

The wooden floor is rotting out, Rebert said, and needs to be replaced. He recommended replacing with wooden base and amesite top "because for about \$300 we will have a bridge that will last another 20 years and I think by that time we will have to replace the bridge with a 50-foot bridge as Water St. develops in that section."

Borough Engineer LeRoy Winebrenner said the borough workmen will remove the present floor of the bridge, clean the steel beams underneath and then replace the flooring. During the work the bridge will be closed for about three weeks, Winebrenner said.

New Building Not Discussed
 Similar replacement of the floor of the bridge over the Tiber on Fourth St. was mentioned, but Winebrenner said he believes that work can be postponed to next year.

No discussion was held on the possibility of the town purchasing a new building to replace the present fire house and borough offices. The only mention was indirect when the secretary asked if she "should read Mr. Epley's letter." Council President Oyer said: "No, I think all of the councilmen are familiar with it."

The borough secretary, Mrs. William Drach, read a petition from William H. Musser Jr., S. Blaine Miller, Joel L. Hill and Francis L. Sanders, trading as Colt Park Development Co., for annexation of property owned by them in the southern section of the Colt Park area into the borough. The section of land, extending to the government land, is now part of Cumberland Twp.

Want 8 Fire Plugs
 The borough engineer was directed to make a map of the area and the borough solicitor was directed to draw up an annexation ordinance to be submitted at the February meeting of council.

Eight new fire plugs were recommended by Burgess Weaver, in a letter read to council. Weaver said he, Fire Chief Donald McSherry and Assistant Chief Donald Staub had surveyed the town and recommended fire plugs near these sites: Long Lane at Queen, Fairview at Johns, Johns at Queen, King at Highland, Johns at King, Culp at Johns, Fourth at E. Middle and Fifth at E. Middle St.

Actual location of the fire plugs within those areas will be made by the fire chief and manager of the water authority. The matter was turned over to the safety and utility committees to make final recommendation next month.

A deed from Colt Park Development Company to the borough was read. The deed is for the extension of Johns Ave. between Culp and King Sts. The highway committee was directed to make the customary check of the grade and the solicitor was directed to draw up an ordinance for presentation next month.

Big Check Coming
 Borough Engineer Winebrenner reported that the town will soon receive a check for \$12,500 from the state representing state aid for streets. The amount is fair in excess of sums received previously from the state and Winebrenner said it had been explained to him that it represents increased state aid to boroughs and other governmental bodies for street and road work.

Attorney Thomas Pyle, of the finance committee for the Adams County Free Library, asked increased assistance from town council for the library. The borough has been donating \$800 a year toward the library.

Councilman Mahlon P. Hartzell suggested council consider painting lines for parking spaces on streets which do not have meters, holding that such lines would increase the number of cars which can park on the streets.

Council authorized the placing of a 36-inch storm sewer across Johns St. near the Redding property "to take care of the borough's part of the drainage problem there."

moved their household from Leipzig to Dresden. He was greatly influenced by Haydn and Mozart.

Gypsy Influence
 A Gypsy influence was felt in the closing presentation, Brahms' "Piano Quartet in G Minor, Op. 25, No. 1," including the allegro, intermezzo: Allegro ma non troppo, andante con moto, and Rondo alla Zingarese. Presto. Though born in Hamburg, Brahms spent the greater part of his life in Vienna. Hungarian music, much in evidence in that city, fascinated the composer and quite a number of gypsy movements are found in his chamber music but nowhere is it better displayed than in the concluding selection at Monday's concert.

The musicians received a number of congratulatory back stage at the close of the performance, some to offer congratulations and others to collect autographs. The quartet left for New York City Monday night where they will appear at the Metropolitan Museum this week.

On March 30 the concert association will present its third and final concert this season, "The Vienna Academy Chorus."

figure the cost of dropping 3,000 tons of bombs, which we did with 2,700 flights to stop the German breakthrough at St. Lo. We dropped 3,000 tons of bombs and the Germans suffered ten per cent casualties. Today we would drop one atomic bomb and secure 80 per cent casualties. Frightening as it is, we have entered a new age, the atomic age.

"I don't think anyone today can visualize all the changes that will come about as a result of the atomic age. And the atom bomb, like the airplane, is an instrument for good or for evil, depending on how man uses it."

Shows AF Film

Col. Williams concluded his talk by showing a new Air Force film depicting the work of cadets in Air Force ROTCs. He noted that "80 per cent of the officers of the armed forces today come from the ROTC units in the nation."

Dr. Harold Dunkelberger, vice president of Rotary, announced that Dr. George N. Ewing will present his classification talk next Monday evening. Attorney Eugene V. Bullett will speak on "How I Came to Gettysburg," in a series of similar talks being held weekly. Frank N. Britcher gave the talk Monday evening.

President John Hostetter presided at the meeting with 59 present. John Hewitson, who had been the Gettysburg High School student "member" of Rotary during December introduced John Weber who will fill that post in January.

RAISE \$117 ON "BLUE CRUTCH"

The "Blue Crutch" campaign conducted by Richard J. Gross Post 8896, VFW, East Berlin, and its auxiliary raised \$117.22 for the March of Dimes, Lois S. Baker announced today.

Members of the VFW and auxiliary canvassed the East Berlin banks, post office and business places and secured \$117.22 from a community with a population of 1,079.

Mrs. J. E. Codori, chairman of the March of Dimes, expressed the appreciation of her organization to the East Berlin VFW and the people of that community and noted that this year's campaign exceeded last year's result. In the first "Blue Crutch" sale for the March of Dimes last year the East Berlin VFW raised about \$90.

All of the Veterans of Foreign Wars posts of the county are planning "Blue Crutch" sales to help the polio foundation drive. The other posts will hold their sales later.

AUTO, TRUCK COLLIDE

A car driven by Donald Gilbert, 34, York, and a pickup truck driven by Sterling Thomas, 45, York Springs R. 1, collided in York Monday at 5 p.m., York police said. No one was reported hurt. Damage was estimated at \$25 to the car. There was no damage to the truck.

THREE MISHAPS IN HANOVER ARE BEING PROBED

Paul A. Welch, 33, Taneytown R. D., in default of \$500 bond set at a hearing Sunday before Justice of the Peace William Y. Nail, Hanover, was committed to the York County jail for court action after pleading guilty to a charge of operating a motor car while under the influence of intoxicants. Welch, Hanover police said, was the driver of a car which collided with a parked car owned by Irvin C. Auchey, Hanover, about 8:20 p.m. Saturday.

Police reported Welch's auto pushed the Auchey car into a utility pole. The driver then made temporary repairs to his car and continued to High St., stopping at a service station where he was apprehended. He was taken before a physician who pronounced him unfit to drive. Damage to his car was estimated at \$200 and to the Auchey machine at \$150.

Another collision occurred about 4 a.m. Sunday when a car driven by Bernard C. Eckenrode, 33, Littlestown R. 1, crashed into a parked car owned by the Valley Motors Co., Hanover.

Police said Eckenrode was traveling west on Frederick St. when his auto veered to the left, crashed into the parked car, then stopped in front of 399 Frederick St., leaving skid marks from the point of impact for a distance of 165 feet. Police estimated damage to the Valley Motor Co. car at \$1,000 and to Eckenrode's machine at \$300. Eckenrode was charged with reckless driving and leaving the scene of an accident without revealing his identity.

A third collision occurred about 10:15 p.m. Sunday when a car driven by Cyril A. Elitz, 49, McSherrystown, was in collision with a car driven by Paul F. Null, Hanover.

RED PREMIER OF CHINA FLIES TO SOVIET CAPITAL

MOSCOW (AP) — Premier Chou En-lai flew into Moscow Monday for a three-day stopover enroute to visits to two of the most crucial areas of the Communist world—Poland and Hungary.

The announced purpose of Chou's trip to Europe was to make a promised state visit to Poland where Wladyslaw Gomulka, the new party leader, is apparently anxious to convince the Chinese Communists that he is on a proper path. Tass reported from Peiping that Chou would continue on to Budapest for a meeting with the Janos Kadar government.

The Chinese Communist leader had just returned to Peiping from a tour of India, Pakistan and Burma before leaving for Moscow.

Soviet President Klement Voroshilov, Premier Nikolai Bulganin and party boss Nikita Khrushchev were waiting to grasp Chou's outstretched hand as he emerged from the plane.

Molotov On Hand

Also on hand were Deputy Premiers V. M. Molotov, Anastas Mikoyan, Lazar Kaganovich and Foreign Minister Dmitri Shepilov.

In a speech at the southern Siberian city of Irkutsk en route, Chou described the unity of Communist China and Russia as "the main guarantee of universal peace."

The Chinese radio said Chou, who also is foreign minister, was accompanied by Vice Premier Marshal Ho Lung and Vice Foreign Minister Wang Chieh-siang. After his visits to Moscow, Warsaw and Budapest, Chou will complete his interrupted Asian tour with visits to Nepal and Afghanistan.

Chou's visit to Poland and Hungary so soon after the upsurge of the wave of anti-Sovietism in

2 GUNMEN ROB COTTON CLUB

MIAMI BEACH, Fla. (AP)—Two hooded gunmen held up the Cotton Club, prominent Miami Beach night spot, Monday and escaped with \$35,000 in cash. They left the owner and manager bound with cords from a venetian blind.

George Weinger, 43, owner of the club, and Jerry Hirsch, 46, the manager, united themselves in a few minutes after the robbers left and called police.

Weinger told officers he and Hirsch went to a nearby restaurant for coffee after closing the club at 5 a.m. When they returned, the robbers were inside.

"I felt a big gun at my head and a voice said, 'Don't move,'" Weinger related. Hirsch said the other robber jammed a pistol into his side.

Weinger was forced to open the safe. It contained about \$35,000, he said, including the club's receipts from Friday through Sunday, and \$6,000 which belonged to bandleader Cab Calloway, who is currently appearing at the club.

Weinger said the robbers also took \$70 out of his pockets and about \$500 from Hirsch's wallet.

ONE KILLED IN CRASH OF LINER

TULSA, Okla. (AP)—Only six miles north of Tulsa Municipal Airport, an American Airlines passenger plane tore into a partially wooded area on Sunday, narrowly missing a power line and scrub oak trees and fatally injuring one passenger.

The other six passengers and three crewmen were hospitalized but none reported in critical condition. The dead woman was Mrs. Nell Tobler, 70, Tulsa.

Paul Johnson, 33-year-old copilot of Tulsa, walked and crawled almost a mile to a farm house for help.

The two-engine Convair — en route from Providence, R. I., to Tulsa — was piloted by Wesley G. Mims, 34, Tulsa. He is a veteran of 10 years with American.

No cause for the crash has been disclosed.

The plane apparently brushed a power line as it pancaked into the field. It skidded about 400 feet between rows of scrub oak trees, one of which smashed the right wing. It did not burn.

those two countries was viewed both in Hong Kong and Moscow as evidence that the Chinese regime is playing an increasingly influential and independent role in world Communism.

The Chinese Communists seem to be making it plain that although they support Russia as an expedient to keep the Communist world from falling apart, they will not accept blindly Moscow's version of what happened in Hungary and Poland.

SNOW DELAYS SWEARING IN OF TWO JUDGES

PHILADELPHIA (AP) — Charles Alvin Jones, Pennsylvania's 48th chief justice, presided today at his first session of the State Supreme Court.

Only five justices were seated when Jones formally opened the 1957 court term. One of his first official acts was the scheduled swearing in of two new members of the court—Democrat Herbert B. Cohen of York and Republican Benjamin R. Jones of Wilkes-Barre. But the ceremony was delayed to await the arrival of a delegation from York.

The first snowfall of 1957 in this area plagued the court's well-laid plans, forcing an 1½-hour postponement of the swearing in ceremonies for the two new justices.

Court Convened At 10 A.M.

Chief Justice Jones convened the court promptly at 10 a.m.—the scheduled starting time—and then announced that a delegation of lawyers from York County had been forced to park their cars at Lancaster and take the tram into Philadelphia.

"This is an important occasion for Justice Cohen and we feel that all his friends who desire to attend should have an opportunity to witness this ceremony today," the chief justice said.

Plans for the court to hand down a few opinions still remaining from last year's docket also were delayed.

Among those present for the special ceremonies were Gov. Leader; Atty. Gen. Thomas D. McBride who succeeded Cohen; former Govs. Arthur James and John S. Fine, both from Luzerne County and both ex-members of the State Superior Court.

FINISH BASE AT SOUTH POLE

McMURDON SOUND, Antarctica (AP) — U. S. Navy Seabees have finished building a U. S. base at the South Pole. It will be home during the approaching antarctic winter to 18 American scientists and Navy men who will make observations for the International Geophysical Year.

The Seabees in six weeks put up seven buildings on the two-mile-high plateau around the pole. Prefabricated parts for the buildings were dropped by parachute to the 24-man construction party.

Lt. Richard A. Bowers of Harrisburg, Pa., who directed the construction flew back to McMurdoo Sound with the last of his Seabee group. He left behind Dr. Paul A. Siple of Washington, D. C., leader of the scientific expedition, and eight Navy men commanded by Lt. Jack Tuck of Auburn, Mass.

The rest of the scientists are en route to Antarctica by ship.

NAB 2 NEGROES AS SUSPECTS IN BOY'S SLAYING

SIKESTON, Mo. (AP) — Police arrested two Negroes on Sunday night and spirited them away for questioning about the Saturday night slaying of an 18-year-old high school football player and the assault of his girl friend.

More than 100 possemen fanned out through the southeast Missouri Delta country in a day-long manhunt on Sunday, setting up roadblocks and searching Negro settlements house to house.

About 25 high school youngsters gathered at one time in front of the Sikeston jail but there was no disorder.

Withhold One Name

Lt. Eldridge F. Dampf of the Missouri highway patrol said one of the men under arrest was Claude (Boothmouth) Lackley, 61-year-old Sikeston handyman.

The name of the other Negro was not disclosed. Dampf said he was a friend of Lackley and was picked up for questioning about a .32 pistol.

Victim of the shooting was John Malugan, who lived at Charleston, Mo., 14 miles east of Sikeston.

Police said 18-year-old June Castleberry of Sikeston told them she and Malugan were parked on a country road just outside Sikeston when a Negro approached the car.

She related Malugan told the man to move on but he pulled a gun and fired, hitting Malugan in the chest. Miss Castleberry said the Negro dragged her from the car across a cotton field to the porch of a vacant house and attacked her.

RED ATTACK IN MIDDLE EAST TO BE MET BY U. S. FORCES: DULLES

WASHINGTON (AP)—Secretary of State Dulles told Congress Monday that the way to peace in the Middle East is to make it clear "that armed Communist attack would have to be met, if need be, by the armed forces of the United States."

"You may feel, I do feel," Dulles told a crowded public meeting of the House Foreign Affairs Committee "that there is in fact no doubt as to what the Congress would do if international communism set out on a piecemeal conquest of the world by war."

"But until the Congress has actually spoken, there is doubt in the Middle East and there may be doubt in the Soviet Union."

Delay Means Doubts

Delay would make such doubts grow, the secretary said, and he told the legislators, some of whom have expressed concern with the sweeping nature of the fight-if-necessary authority sought by the President:

"The purpose of the proposed resolution is not war. It is peace. The purpose, as in other cases where the President and the Congress have acted together to oppose international communism, is to stop World War III before it starts."

New Civil Rights Fight Is Brewing

WASHINGTON (AP) — Congress' fight over civil rights proposals seemed likely today to break out again in about two weeks, this time in the House.

Chairman Celler (D-NY) of the House Judiciary Committee said in an interview that civil rights bills have "No. 1 priority" with that group.

Speed is the keynote of strategy worked out by Celler and other House backers of such legislation. They made their plans even before likeminded senators, as expected, lost a fight last Friday for a rules change that would have made it easier to curb filibusters.

Southern senators have used the filibuster, or endless debate, to kill civil rights bills in past years.

WARNS AGAINST SPREAD OF ROAD "SLUMS" IN U.S.

KANSAS CITY, Mo.—A nationwide network of highway "slums" with ultimate destruction of property values will result from the nation's multi-billion dollar road-building program in the next decade unless adequate provision is made for preservation of roadsides through functional landscaping, as well as regulations adopted by the states to prevent a hodge-podge of cheap roadsides construction, Clyde H. Stocking, San Jose, Calif., president, American Association of Nurserymen, warned here last night at the Western Association of Nurserymen meeting.

"There seems to be little roadside planning either by the federal government or the states to insure that motoring will be a scenic pleasure, instead of 70-mile-per-hour hysteria over speed lanes between distracting roadsides that help the accident death toll to mount with horrifying regularity," Stocking said. "In most of the nation the situation is growing worse from year to year. Widening the roadway is not the whole answer because the problem is both social and economic."

Makes Four Suggestions

Stocking suggested four initial steps to insure the future of U. S. highway systems and the areas bordering them.

1. Require minimum functional landscaping of express highways for safety by means of median-strip plantings to reduce headlight glare wherever needed; plantings of "bays" and "promontories" to reduce motoring monotony; erosion control plantings for economy of maintenance, and establishment of roadside "green belts" to reduce traffic noises and uphold values of privately-owned property in populated areas along the rights-of-way. Erosion control plantings of shrubs can save a large part of highway maintenance costs each year, as al-

Tobyhanna Probe To End In March

SCRANTON, Pa. (AP)—The government expects to complete the Tobyhanna grand jury investigation by March 1, U. S. Atty. J. Julius Levy said yesterday.

Levy said certain aspects of the inquiry into charges of corruption in connection with the building of the big Army Signal Corps depot might continue beyond that date, but that the goal is to wind up the grand jury's work by then.

He added that only fresh disclosures by witnesses would change the schedule.

Levy made his statement before he left for Washington to discuss "two matters"—he declined to be specific—with Department of Justice officials.

The only other Monday development was that John P. Gilboy, Jr., Scranton businessman, posted \$1,000 bail before U. S. Commissioner Harry A. Kolb. Gilboy is accused of conspiracy to defraud the government during the construction of Tobyhanna.

ready proved in a number of states. 2. Control roadside businesses with minimum set-backs and landscaping to preserve the natural beauty of the roadsides.

EXPECT HOUSE GROUP WILL OK IKE'S PROPOSAL

By LEWIS GULICK
WASHINGTON (AP)—The chairman of the House Foreign Affairs Committee and a top Republican committee member both predicted today that the House group will speedily approve President Eisenhower's resolution on the Middle East.

Chairman Thomas S. Gordon (D-Ill.) and Rep. Vorys (R-Ohio) expressed that opinion as the committee called Secretary of State Dulles back for more questioning.

Extensive hearings still lay ahead in the Senate. Sen. Russell (D-Ga.) said that "I, for one, am not going to be stampeded into action on this."

Details Reserved
Eisenhower's resolution, delivered to Congress Saturday on a top priority basis, would authorize dollar help to Middle East countries and use of U. S. armed forces in case of open Communist military attack.

Dulles reserved for today's closed session details on some of the military matters he touched on during daylong questioning yesterday. He did tell the congressmen that:

1. There is no plan for stepping up American forces in the Middle East.
2. Despite manpower cuts in the U. S. armed forces, America's military "effectiveness" has increased and he is satisfied the United States has enough strength to commit itself against possible brush fire wars in addition to its other commitments. He said, for instance, that we have the power to protect Syria.

Changes Possible
3. American military actions might not be confined to the country where the Reds attack, but could involve strikes in such other areas as the aggressor's staging areas and communications lines.
4. He does not envision an all-out attack on the Soviet Union, unless it is determined that a Communist invasion is really the beginning of World War III.

Senate Republican Leader Knowland of California said after conferring with Eisenhower yesterday that he believes Congress will pass the resolution, but may make some changes in it.

Gordon said Dulles made a "pretty good" presentation of his case. He said he himself had no major alterations to propose, and "I'm happy to say" that he hasn't heard of any from other committee members.

He said the resolution should be ready for floor action within two weeks.

**YOUTH ADMITS
STABBING GIRL**
FAIRFIELD, Calif. (AP)—Multi-

lated by 115 stab wounds, the body of frail, blonde Rose Ann White, 8, was found by a railroad track here on Sunday. A 14-year-old boy admitted the crime.

Roger Brown's "principal concern" was that he might lose the lethal knife, reported Dep. Dist. Atty. J. Clinton Peterson. Young Brown led authorities at 3:30 a. m. to the place where Rose Ann's body was buried loosely under a pile of thistles and grass.

Peterson said Roger, the stepson of Sgt. Merrill Brown of the 436th Antiaircraft Battalion at nearby Travis Air Force Base, confessed the killing calmly and told how he later went home to work on a stamp collection and watch television.

Sunday night in the Solano County Jail at Vallejo, Roger wept a little talking to reporters and said he "wished" the girl was alive.

An autopsy disclosed that the child had not been criminally attacked. Her skull had been fractured three times.

How to prepare good-looking slices from a fresh pineapple? First slice off the plumy top. Now, using a sharp heavy knife, remove the rind from top to bottom. Last, cut out the "eyes" with a small sharp knife, slice into rounds and cut out the core from each round. Thicken a can of stewed tomatoes and heat with a can of flaked tuna (drained.)

WARNS AGAINST SPREAD OF ROAD "SLUMS" IN U.S.

KANSAS CITY, Mo.—A nationwide network of highway "slums" with ultimate destruction of property values will result from the nation's multi-billion dollar road-building program in the next decade unless adequate provision is made for preservation of roadsides through functional landscaping, as well as regulations adopted by the states to prevent a hodge-podge of cheap roadside construction, Clyde H. Stocking, San Jose, Calif., president, American Association of Nurserymen, warned here last night at the Western Association of Nurserymen meeting.

"There seems to be little roadside planning either by the federal government or the states to insure that motoring will be a scenic pleasure, instead of 70-mile-per-hour hysteria over speed lanes between distracting roadsides that help the accident death toll to mount with horrifying regularity," Stocking said. "In most of the nation the situation is growing worse from year to year. Widening the roadway is not the whole answer because the problem is both social and economic."

Makes Four Suggestions

Stocking suggested four initial steps to insure the future of U.S. highway systems and the areas bordering them:

1. Require minimum functional landscaping of express highways for safety by means of median-strip plantings to reduce headlight glare wherever needed, plantings of "bays" and "promontories" to reduce motoring monotony; erosion control plantings for economy of maintenance, and establishment of roadside "green belts" to reduce traffic noises and uphold values of privately-owned property in populated areas along the rights-of-way.
2. Erosion control plantings of shrubs can save a large part of highway maintenance costs each year, as al-

Tobyhanna Probe To End In March

SCRANTON, Pa. (AP)—The government expects to complete the Tobyhanna grand jury investigation by March 1, U.S. Atty. J. Julius Levy said yesterday.

Levy said certain aspects of the inquiry into charges of corruption in connection with the building of the big Army Signal Corps depot might continue beyond that date, but that the goal is to wind up the grand jury's work by then.

He added that only fresh disclosures by witnesses would change the schedule.

Levy made his statement before he left for Washington to discuss "two matters"—he declined to be specific—with Department of Justice officials.

The only other Monday development was that John P. Guioy, Jr., Scranton businessman, posted \$10,000 bail before U.S. Commissioner Harry A. Kolb Gilboy is accused of conspiracy to defraud the government during the construction of Tobyhanna.

How to prepare good-looking slices from a fresh pineapple? First slice off the plumy top. Now using a sharp heavy knife, remove the rind from top to bottom. Last, cut out the "eyes" with a small sharp knife, slice into rounds and cut out the core from each round.

Thicken a can of stewed tomatoes and heat with a can of flaked tuna (drained).

Add enough sugar and lemon juice to whipped cream to make sweet-and-sour; fold into thin strips or small cubes of cooked meats with salt and pepper to taste. Good with veal or beef.
